

Subject card

Subject name and code	Internship, PG_00044448						
Field of study	Engineering Management						
Date of commencement of studies	October 2019	Academic year of realisation of subject			2022/2023		
Education level	first-cycle studies	Subject group			Optional subject group		
Mode of study	Part-time studies	Mode of delivery			at the university		
Year of study	4	Language of instruction			Polish		
Semester of study	7	ECTS credits			6.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Administration, Faculty of Management and Economics -> Faculty of Management and Economics						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Edyta Drajaska				
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	0.0	0
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	0		0.0		160.0	160
Subject objectives	The aim of the course is to use knowledge and skills to solve problems in enterprise and the assessment of phenomena occurring in their environment.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K6_K02] identifies problems related to undertaking various tasks, including engineering in the changing conditions of the organisation's functioning; takes into account the ethical aspect related to the implementation of the organisation's tasks		He knows enabling tools solution to the problem, he solves the problem, he can present the concept of changes.		[SK5] Assessment of ability to solve problems that arise in practice		
	[K6_K01] can define priorities related to the implementation of team tasks as well as individual tasks		Defines priorities in projects team and individual.		[SK3] Assessment of ability to organize work		
	[K6_U07] can work independently and in a team		Can organize a team with a goal performs a specific task and performs division of labor between the members of the team.		[SU1] Assessment of task fulfilment		
	[K6_U13] can improve oneself through the systematic acquisition of knowledge and skills		The student improves the acquired knowledge and skills through implementation design work.		[SU3] Assessment of ability to use knowledge gained from the subject		
	[K6_U06] uses basic theoretical knowledge to solve selected organizational problems, design technical solutions and manage projects, including engineering projects		The student manages engineering projects and solves organizational problems.		[SU1] Assessment of task fulfilment		
Subject contents	Getting to know the organizational structure of a company or institution.						
	Getting to know the tools, production systems and engineering techniques used in the enterprise.						
	Participation in the creation and implementation of an engineering project.						
Prerequisites and co-requisites	Not applicable						

Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
		Report	100.0%
Recommended reading	Basic literature	Specialized reading list.	
	Supplementary literature	Specialized reading list.	
	eResources addresses		
Example issues/ example questions/ tasks being completed	<p>Collection of research materials.</p> <p>Indication of the problem.</p> <p>Problem solving steps.</p> <p>Database usage.</p>		
Work placement	Not applicable
