

Subject card

Subject name and code	Management of IT Resources in the Enterprise, PG_00044763						
Field of study	Engineering Management						
Date of commencement of studies	October 2019	Academic year of realisation of subject				2020/2021	
Education level	first-cycle studies	Subject group				Obligatory subject group in the field of study Subject group related to scientific research in the field of study	
Mode of study	Part-time studies	Mode of delivery				blended-learning	
Year of study	2	Language of instruction				Polish	
Semester of study	3	ECTS credits				4.0	
Learning profile	general academic profile	Assessment form				exam	
Conducting unit	Department of Informatics in Management -> Faculty of Management and Economics						
Name and surname of lecturer (lecturers)	Subject supervisor		dr inż. Magdalena Ciesielska				
	Teachers		dr inż. Magdalena Ciesielska				
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	8.0	0.0	8.0	0.0	0.0	16
	E-learning hours included: 8.0						
Zarządzanie Zasobami IT w przedsiębiorstwie NS 2020/2021 - Moodle ID: 6800 https://enauczanie.pg.edu.pl/moodle/course/view.php?id=6800							
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	16		8.0		76.0	100
Subject objectives	The aim of the course is to acquire knowledge about IT resource management in modern enterprise. The student will acquire knowledge about modern technologies and its use in the enterprise as well as basic knowledge in the field of human resource management in IT, infrastructure management, IT service management and the legal implications of implementing new ones technology in the enterprise.						
Learning outcomes	Course outcome		Subject outcome			Method of verification	
	[K6_W12] has a basic knowledge of production management and occupational safety and ergonomics management, as well as information technologies necessary for engineering management					[SW3] Assessment of knowledge contained in written work and projects [SW2] Assessment of knowledge contained in presentation	
	[K6_U09] obtains data for analysis and interpretation of results using information technology					[SU1] Assessment of task fulfilment	
[K6_U12] can design the process of exploitation of production and IT infrastructure with the use of appropriate methods, techniques and tools					[SU5] Assessment of ability to present the results of task [SU4] Assessment of ability to use methods and tools [SU2] Assessment of ability to analyse information [SU1] Assessment of task fulfilment		
Subject contents	Resource Based View on IT. Definition of IT Resources. T strategy. Emerging technologies in enterprise. IT-Business Alignment. ITSM. IT Audit. ITAM. IT Human Resource Management. Enterprise Architecture. IT Project Management. IT Outsourcing. Legal and economic issues of IT contracts.						
Prerequisites and co-requisites	none						
Assessment methods and criteria	Subject passing criteria		Passing threshold			Percentage of the final grade	
	Lecture		60.0%			50.0%	
	Laboratory		60.0%			50.0%
