

Subject card

Subject name and code	Organic Chemistry, PG_00036272						
Field of study	Green Technologies						
Date of commencement of studies	October 2020	Academic year of realisation of subject			2021/2022		
Education level	first-cycle studies	Subject group			Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	2	Language of instruction			Polish		
Semester of study	4	ECTS credits			4.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Department of Organic Chemistry -> Faculty of Chemistry						
Name and surname of lecturer (lecturers)	Subject supervisor	prof. dr hab. inż. Krystyna Dzierzbicka					
	Teachers	prof. dr hab. inż. Krystyna Dzierzbicka dr hab. inż. Sebastian Demkowicz dr inż. Monika Gensicka-Kowalewska					
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	60.0	0.0	0.0	60
	E-learning hours included: 0.0 Adresy na platformie eNauczenie:						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM		
	Number of study hours	60	5.0	35.0	100		
Subject objectives	Familiarization with laboratory sets for typical activities performed in the laboratory, independent implementation of planned syntheses.						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	[K6_U01] is able to obtain information from literature, databases and other sources, is able to integrate the information obtained, to make their interpretation, as well as draw conclusions and formulate and justify opinions, take part in the discussion	Student draws a correct structural formulas of organic compounds. Student identifies separate class of organic compounds.			[SU3] Assessment of ability to use knowledge gained from the subject [SU2] Assessment of ability to analyse information		
	[K6_W02] has a basic knowledge of chemistry including general chemistry, inorganic, organic, physical, analytical, including the knowledge necessary to describe and understand the phenomena and chemical processes occurring in the environment; measurement and the determination of the parameters of these processes.	Student classifies organic reaction mechanisms of organic compounds. Student assembles laboratory sets for typical activities performed in the laboratory.			[SW1] Assessment of factual knowledge		

Subject contents	Specification of preparations: 1. Oxidation and reduction reactions 2. Aldehydes and ketone, 3. Carboxylic acids and their derivatives IV. Diazonium salts in organic synthesis V. Applications of reactions of magnesium organic compounds (<i>Grignard reagents</i>)											
Prerequisites and co-requisites	Basic inorganic chemistry. Knowledge of the symbols of elements, the valence and ability to perform simple stoichiometric calculation.											
Assessment methods and criteria	<table border="1" data-bbox="448 618 1489 786"> <thead> <tr> <th data-bbox="448 618 798 651">Subject passing criteria</th> <th data-bbox="802 618 1142 651">Passing threshold</th> <th data-bbox="1147 618 1489 651">Percentage of the final grade</th> </tr> </thead> <tbody> <tr> <td data-bbox="448 658 798 786">Implementation of the planned syntheses. Collecting the appropriate number of points in accordance with the laboratory regulations.</td> <td data-bbox="802 658 1142 786">60.0%</td> <td data-bbox="1147 658 1489 786">100.0%</td> </tr> </tbody> </table>			Subject passing criteria	Passing threshold	Percentage of the final grade	Implementation of the planned syntheses. Collecting the appropriate number of points in accordance with the laboratory regulations.	60.0%	100.0%			
Subject passing criteria	Passing threshold	Percentage of the final grade										
Implementation of the planned syntheses. Collecting the appropriate number of points in accordance with the laboratory regulations.	60.0%	100.0%
