

Subject card

Subject name and code	Biophysics, PG_00047801						
Field of study	Biomedical Engineering, Biomedical Engineering, Biomedical Engineering						
Date of commencement of studies	October 2020	Academic year of realisation of subject				2021/2022	
Education level	first-cycle studies	Subject group				Obligatory subject group in the field of study Subject group related to scientific research in the field of study	
Mode of study	Full-time studies	Mode of delivery				at the university	
Year of study	2	Language of instruction				Polish	
Semester of study	4	ECTS credits				4.0	
Learning profile	general academic profile	Assessment form				assessment	
Conducting unit	Department of Physics of Electronic Phenomena -> Faculty of Applied Physics and Mathematics						
Name and surname of lecturer (lecturers)	Subject supervisor	dr Brygida Mielewska					
	Teachers	dr Brygida Mielewska dr inż. Marcin Dampc dr inż. Ireneusz Linert					
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	30.0	0.0	15.0	0.0	0.0	45
	E-learning hours included: 0.0						
BEEofizyka IBM 21/22 - Moodle ID: 20187 https://enauczanie.pg.edu.pl/moodle/course/view.php?id=20187							
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM		
	Number of study hours	45	4.0	51.0	100		
Subject objectives	Student acquaints with problems of functioning of living organisms in the context of physical phenomena. Student gains skills of techniques of measurement of physical parameters and observation of processes typical for living structures. Student performs experiments and analyses obtained results.						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	[K6_U05] can plan and conduct experiments related to the field of study, including computer simulations and measurements; interpret obtained results and draw conclusions	student applies experimental methods and computer simulations in measurements			[SU1] Assessment of task fulfilment [SU4] Assessment of ability to use methods and tools [SU5] Assessment of ability to present the results of task		
	[K6_U07] can apply methods of process and function support, specific to the field of study	student applies experimental methods and computer simulations in measurements			[SU4] Assessment of ability to use methods and tools		
	[K6_W52] Knows and understands, to an advanced extent, selected aspects of chemistry and biochemistry, constituting general knowledge related to the field of study	student knows the theory and types of chemical bonds			[SW1] Assessment of factual knowledge		
	[K6_W02] Knows and understands, to an advanced extent, selected laws of physics and physical phenomena as well as methods and theories explaining the complex relationships between them, constituting the basic general knowledge in the field of technical sciences related to the field of study	student knows and understands selected physical laws of thermodynamics, fluid mechanics, waves, geometric optics and light wavea			[SW1] Assessment of factual knowledge		

Subject contents	<p>LECTURE: Intra- and intermolecular forces Thermodynamic systems and processes. Thermodynamics of non-isolated systems. Equilibrium states. Streams. Biological systems as open thermodynamic systems. States of inequilibrium, Transport phenomena. Bioelectric phenomena, membrane potential, diffusion potential Thermodynamic description of chemical reactions, activation energy, kinetics of enzymatic reactions. Cells biophysics: cell membrane, active and passive transport, information flow through the cell membrane, intra- and intercellular communication hormones, neurotransmitters. Electrical model of cell membrane, resting potential, action potential, signal transduction. Biophysics of muscles. Activation transduction in smooth muscles and striated muscles. Mechanics and energetics of muscle contraction. Mechanics of biological liquids. Rheological properties of blood. Biophysics of vision: structure of human eye, eye resolution Optical defects of the eye. Colour vision, stereoscopic vision. Biophysics of hearing: Structure of human ear. Sound perception: pitch, timbre and loudness. Localisation of sources of sound. Audiology, hearing corrections. Perception of balance. Biophysics of taste and smell. Influence of external factors on living organism: vibrations, infra- and ultrasounds. Influence of pressure: hypo- and hiperbaria, hiperbaric therapy. Influence of external fields: constant and low frequency fields High frequency fields and nonionising radiation. Physical processes in excited molecules. Photochemical reactions, photosensibilisation, phototherapy. Laser radiation, its influence and applications.</p> <p>Laboratory</p> <p>1. Acoustic orientation in space 2. Determination of visual field of human eye 3. Time-resolving capability of human eye 4. Electrophoretic mobility 5. Determination of diffusion potential</p>											
Prerequisites and co-requisites	Physics - elementary course Mathematics - differentials, integrals Chemistry - periodic system of the elements, chemical bonds, types of chemical reactions											
Assessment methods and criteria	<table border="1" data-bbox="448 837 1487 943"> <thead> <tr> <th data-bbox="448 837 794 875">Subject passing criteria</th> <th data-bbox="794 837 1141 875">Passing threshold</th> <th data-bbox="1141 837 1487 875">Percentage of the final grade</th> </tr> </thead> <tbody> <tr> <td data-bbox="448 875 794 904">Laboratory</td> <td data-bbox="794 875 1141 904">50.0%</td> <td data-bbox="1141 875 1487 904">50.0%</td> </tr> <tr> <td data-bbox="448 904 794 943">Written exam or tests</td> <td data-bbox="794 904 1141 943">50.0%</td> <td data-bbox="1141 904 1487 943">50.0%</td> </tr> </tbody> </table>			Subject passing criteria	Passing threshold	Percentage of the final grade	Laboratory	50.0%	50.0%	Written exam or tests	50.0%	50.0%
Subject passing criteria	Passing threshold	Percentage of the final grade										
Laboratory	50.0%	50.0%										
Written exam or tests	50.0%	50.0%
