

Subject card

| | | | | | | | |
|---|--|--|---|-------------------------------------|---------|--|-----|
| Subject name and code | DIPLOMA EXAM PREPARATION, PG_00052748 | | | | | | |
| Field of study | Architecture | | | | | | |
| Date of commencement of studies | October 2020 | | Academic year of realisation of subject | | | 2023/2024 | |
| Education level | first-cycle studies | | Subject group | | | Obligatory subject group in the field of study | |
| Mode of study | Full-time studies | | Mode of delivery | | | at the university | |
| Year of study | 4 | | Language of instruction | | | Polish | |
| Semester of study | 8 | | ECTS credits | | | 5.0 | |
| Learning profile | general academic profile | | Assessment form | | | assessment | |
| Conducting unit | Faculty of Architecture | | | | | | |
| Name and surname of lecturer (lecturers) | Subject supervisor | | dr inż. arch. Anna Wancław | | | | |
| | Teachers | | dr inż. arch. Anna Wancław | | | | |
| Lesson types and methods of instruction | Lesson type | Lecture | Tutorial | Laboratory | Project | Seminar | SUM |
| | Number of study hours | 5.0 | 0.0 | 0.0 | 0.0 | 0.0 | 5 |
| | E-learning hours included: 0.0 | | | | | | |
| Learning activity and number of study hours | Learning activity | Participation in didactic classes included in study plan | | Participation in consultation hours | | Self-study | SUM |
| | Number of study hours | 5 | | 10.0 | | 110.0 | 125 |
| Subject objectives | Remind of knowledge of all Bachelor (First degree) studies on field of studies in Architecture | | | | | | |

| | | | |
|--|---|--|--|
| Learning outcomes | Course outcome | Subject outcome | Method of verification |
| | [K6_W04] knows and understands relations between man and architecture and between architecture and the surrounding environment, and the need to adapt architecture to human needs and scale; problems of physics, technology and functions of buildings to the extent that ensures comfort of use and protection against the effects of weather; methods and means of implementing environmentally responsible sustainable design as well as protection and conservation of the surrounding environment | knows and understands relations between man and architecture and between architecture and the surrounding environment, and the need to adapt architecture to human needs and scale; problems of physics, technology and functions of buildings to the extent that ensures comfort of use and protection against the effects of weather; methods and means of implementing environmentally responsible sustainable design as well as protection and conservation of the surrounding environment | [SW1] Assessment of factual knowledge |
| | [K6_W03] knows and understands history and theory of architecture as well as art, technology and humanities to the extent necessary for the proper performance of architectural designs; issues related to architecture and urban planning useful for the design of architectural objects and urban complexes in the context of social, cultural, natural, historical, economic, legal and other non-technical conditions of engineering activities, integrating knowledge acquired during studies; | knows and understands history and theory of architecture as well as art, technology and humanities to the extent necessary for the proper performance of architectural designs; issues related to architecture and urban planning useful for the design of architectural objects and urban complexes in the context of social, cultural, natural, historical, economic, legal and other non-technical conditions of engineering activities, integrating knowledge acquired during studies; | [SW1] Assessment of factual knowledge |
| | [K6_W71] has general knowledge in humanistic, social, economic or legal sciences | has general knowledge in humanistic, social, economic or legal sciences | [SW1] Assessment of factual knowledge |
| | [K6_W01] knows and understands construction problems, building and engineering issues related to building design; principles, solutions, constructions and building materials used in simple engineering tasks in the field of architectural and urban design | knows and understands construction problems, building and engineering issues related to building design; principles, solutions, constructions and building materials used in simple engineering tasks in the field of architectural and urban design | [SW1] Assessment of factual knowledge |
| | [K6_K04] is ready for lifelong learning, including second cycle and post-graduate studies or participation in other forms of education | is ready for lifelong learning, including second cycle and post-graduate studies or participation in other forms of education | [SK4] Assessment of communication skills, including language correctness |
| Subject contents | Preparation for the exam covering the whole problems of program of study, divided into four blocks: "Architecture", "Urban planning", "History of Art", "Technics". | | |
| Prerequisites and co-requisites | | | |
| Assessment methods and criteria | Subject passing criteria | Passing threshold | Percentage of the final grade |
| | Oral exam | 100.0% | 100.0% |
| Recommended reading | Basic literature | According to individual selection of student | |
| | Supplementary literature | According to individual selection of student | |
| | eResources addresses | Adresy na platformie eNauczanie: | |
| Example issues/ example questions/ tasks being completed | 1. Definitions of architecture. 2. Notion of urban revitalisation. 3. Acropolis in Athens - epoch, objects, architects. 4. Kind of floors, layers of floors, examples of employment. | | |
| Work placement | Not applicable | | |
