

Subject card

Subject name and code	DIPLOMA EXAM PREPARATION, PG_00052514						
Field of study	Architecture						
Date of commencement of studies	October 2020		Academic year of realisation of subject			2023/2024	
Education level	first-cycle studies		Subject group			Obligatory subject group in the field of study	
Mode of study	Full-time studies		Mode of delivery			at the university	
Year of study	4		Language of instruction			Polish	
Semester of study	8		ECTS credits			5.0	
Learning profile	general academic profile		Assessment form			assessment	
Conducting unit	Faculty of Architecture						
Name and surname of lecturer (lecturers)	Subject supervisor		dr inż. arch. Anna Wanclaw				
	Teachers		dr inż. arch. Anna Wanclaw				
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	5.0	0.0	0.0	0.0	0.0	5
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	5		10.0		110.0	125
Subject objectives	Remind of knowledge of all Bachelor (First degree) studies on field of studies in Architecture						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[K6_K04] is ready for lifelong learning, including second cycle and post-graduate studies or participation in other forms of education	is ready for lifelong learning, including second cycle and post-graduate studies or participation in other forms of education	[SK4] Assessment of communication skills, including language correctness
	[K6_W01] knows and understands construction problems, building and engineering issues related to building design; principles, solutions, constructions and building materials used in simple engineering tasks in the field of architectural and urban design	knows and understands construction problems, building and engineering issues related to building design; principles, solutions, constructions and building materials used in simple engineering tasks in the field of architectural and urban design	[SW1] Assessment of factual knowledge
	[K6_W71] has general knowledge in humanistic, social, economic or legal sciences	has general knowledge in humanistic, social, economic or legal sciences	[SW1] Assessment of factual knowledge
	[K6_W03] knows and understands history and theory of architecture as well as art, technology and humanities to the extent necessary for the proper performance of architectural designs; issues related to architecture and urban planning useful for the design of architectural objects and urban complexes in the context of social, cultural, natural, historical, economic, legal and other non-technical conditions of engineering activities, integrating knowledge acquired during studies;	knows and understands history and theory of architecture as well as art, technology and humanities to the extent necessary for the proper performance of architectural designs; issues related to architecture and urban planning useful for the design of architectural objects and urban complexes in the context of social, cultural, natural, historical, economic, legal and other non-technical conditions of engineering activities, integrating knowledge acquired during studies;	[SW1] Assessment of factual knowledge
	[K6_W04] knows and understands relations between man and architecture and between architecture and the surrounding environment, and the need to adapt architecture to human needs and scale; problems of physics, technology and functions of buildings to the extent that ensures comfort of use and protection against the effects of weather; methods and means of implementing environmentally responsible sustainable design as well as protection and conservation of the surrounding environment	knows and understands relations between man and architecture and between architecture and the surrounding environment, and the need to adapt architecture to human needs and scale; problems of physics, technology and functions of buildings to the extent that ensures comfort of use and protection against the effects of weather; methods and means of implementing environmentally responsible sustainable design as well as protection and conservation of the surrounding environment	[SW1] Assessment of factual knowledge
Subject contents	Preparation for the exam covering the whole problems of program of study, divided into four blocks: "Architecture", "Urban planning", "History of Art", "Technics".		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Oral exam	100.0%	100.0%
Recommended reading	Basic literature	According to individual selection of student	
	Supplementary literature	According to individual selection of student	
	eResources addresses	Adresy na platformie eNauczanie:	
Example issues/ example questions/ tasks being completed	1. Definitions of architecture. 2. Notion of urban revitalisation. 3. Acropolis in Athens - epoch, objects, architects. 4. Kind of floors, layers of floors, examples of employment.		
Work placement	Not applicable
