The idea is to design green to give back the greenery to the public square to make a city space more friendly for users and more friendly to the environment. You can design a story, to make a space more attractive. You can design a Green Story, to make people more aware about a Sustainable Development. And how do you understand a need of Green in the urban space? You will work in small groups to discuss the problem. You will propose your own Green Story in a form of a pavilion and you will tell a story about it in a short video. The proposition of the location is Garnizon housing estate in Gdańsk-Wrzeszcz, but you can propose your own plot as a starting point to our discussion
