

## Subject card

Subject name and code	Basics of technical physics, PG_00020778						
Field of study	Technical Physics						
Date of commencement of studies	October 2020	Academic year of realisation of subject			2022/2023		
Education level	first-cycle studies	Subject group			Optional subject group Subject group related to scientific research in the field of study		
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	3	Language of instruction			Polish Can speak English if necessary.		
Semester of study	5	ECTS credits			6.0		
Learning profile	general academic profile	Assessment form			exam		
Conducting unit	Department of Theoretical Physics and Quantum Information -> Faculty of Applied Physics and Mathematics						
Name and surname of lecturer (lecturers)	Subject supervisor	prof. dr hab. Anna Perelomova					
	Teachers	dr inż. Ewa Erdmann prof. dr hab. Anna Perelomova					
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	30.0	0.0	0.0	0.0	30.0	60
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours		Self-study		SUM
	Number of study hours	60	15.0		75.0		150
Subject objectives	The aim of the course is to present physics and how to describe interesting physical phenomena in a qualitative and quantitative way. There are discussed in the lecture, wherever possible, methods, and phenomena needed to explain the mode of operation of equipment and technologies in various fields.						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	K6_W02	A student understands the relationship of various fields of physics and the common mathematical apparatus.			[SW1] Assessment of factual knowledge		
	K6_U08	A student is able to solve problems related to the subject of the lectures and present solutions in writing.			[SU1] Assessment of task fulfilment [SU3] Assessment of ability to use knowledge gained from the subject		
	K6_U07	A student knows how to apply knowledge in simple technical issues. A student can use an appropriate mathematical apparatus.			[SU3] Assessment of ability to use knowledge gained from the subject		
	K6_W01	A student understands the place of physics and its physical applications in everyday life.			[SW1] Assessment of factual knowledge		

Subject contents	<p>Introduction.</p> <p>Types of physical quantities (tensors, scalars, vectors as tensors of the order 0 and 1) and operations on these quantities.</p> <p>Mechanics</p> <p>Newton's principles I, II, III. Force and work. The principle of conservation of momentum. Potential and non-potential forces (3h).</p> <p>Potential energy and the principle of conservation of energy (2h).</p> <p>Harmonic oscillations. Kinetic energy and potential vibrations. Small oscillations. Damped oscillations and the concept of irreversible changes (2h).</p> <p>Rotational dynamics. Angular velocity, angular acceleration. Moment of force, angular momentum (3h).</p> <p>The principle of conservation of angular momentum. Moment of inertia of rigid bodies. Statics of rigid bodies (3h).</p> <p>Fundamentals of Thermodynamics. The zero law of thermodynamics. The first law of thermodynamics. Caloric and thermal equations of state (4h).</p> <p>Specific heat. Ideal gas thermodynamics. The concept of equilibrium and non-equilibrium thermodynamic transformations. Fluxes of mass and heat (4h).</p> <p>Fundamentals of Wave Theory. Sound waves. Wave propagation in confined centers. Standing wave. Interference. Doppler effect. (4h)</p> <p>Shock waves. Dispersion equation. Dispersion relations. (4h)</p>											
Prerequisites and co-requisites												
Assessment methods and criteria	<table border="1"> <thead> <tr> <th data-bbox="456 1514 794 1541">Subject passing criteria</th> <th data-bbox="794 1514 1142 1541">Passing threshold</th> <th data-bbox="1142 1514 1479 1541">Percentage of the final grade</th> </tr> </thead> <tbody> <tr> <td data-bbox="456 1541 794 1574">oral examination</td> <td data-bbox="794 1541 1142 1574">50.0%</td> <td data-bbox="1142 1541 1479 1574">50.0%</td> </tr> <tr> <td data-bbox="456 1574 794 1608">completion of the seminar</td> <td data-bbox="794 1574 1142 1608">50.0%</td> <td data-bbox="1142 1574 1479 1608">50.0%</td> </tr> </tbody> </table>			Subject passing criteria	Passing threshold	Percentage of the final grade	oral examination	50.0%	50.0%	completion of the seminar	50.0%	50.0%
Subject passing criteria	Passing threshold	Percentage of the final grade										
oral examination	50.0%	50.0%										
completion of the seminar	50.0%	50.0%
