|                                 | K6_U02  | The student has the ability to cooperate with various units / departments of the architectural and construction administration. The student has the ability to make the necessary arrangements and opinions necessary from the point of view of the planning procedure.  | [SU2] Assessment of ability to analyse information<br>[SU4] Assessment of ability to use methods and tools |
|                                 | K6_U04  | prepares analyzes of spatial assumptions on the scale of agglomerations, cities and districts; demonstrates the ability to correctly interpret and assess the existing state based on data from various sources; formulates guidelines for urban and architectural design and develops concepts for the transformation of urban structures | [SU1] Assessment of task fulfilment  |
|                                 | [K6_W01] has knowledge related to theoretical and practical issues in the field of spatial management, the basics of planning and urban design and principles of local, regional and national development, and has basic knowledge about contemporary trends of development and revitalization of settlement structures and the life cycle of facilities and systems related to the functioning of settlement units   | The student has the knowledge required for the correct preparation of a planning act.  | [SW1] Assessment of factual knowledge  |
| Subject contents                | <p><b>Lecture:</b></p> <ul style="list-style-type: none"> <li>• The spatial planning systems. Planning instruments.</li> <li>• Studium of the conditions and directions of spatial development (Studium) - the role of the instrument. Administrative procedures of preparing the document. The role of participation in the entire process. The content and standards of the document.</li> <li>• Local plan - the role and the content of the document. Standards and administrative procedures of preparing the document. Documents prepared along the plan. The role of participation in the entire process. Local plan as a legal act. Local revitalisation plan.</li> <li>• Territorial decisions on the local level in the absence of local plan and/or Studium.</li> <li>• Studium of the metropolitan association. Functional areas.</li> <li>• Regional plan. Landscape audit. Plan of the functional urban area of the capital of the region.</li> <li>• Concept of the spatial arrangement of the country. Governmental programmes. National urban policy.</li> <li>• Planning vs implementation. Current problems within Polish planning system.</li> </ul> <p><b>Design:</b></p> <p><i>The aim of the project worked out at the Spatial Planning subject is to develop the concepts of planning documents at the commune level in accordance with applicable legal regulations, in particular in accordance with the Act on spatial planning and development. Particular attention is paid to the purpose for which the document is developed, participants of the class - students set their goals on their own, basing on their own analyzes of the conditions and their urban concept developed in a given area.</i></p> |  |  |
