

Subject card

Subject name and code	Metrology, PG_00039942								
Field of study	Management and Production Engineering, Management and Production Engineering								
Date of commencement of studies	October 2020	Academic year of realisation of subject		2020/2021					
Education level	first-cycle studies		Subject group		Obligatory subject group in the field of study Subject group related to scientific research in the field of study				
Mode of study	Full-time studies		Mode of delivery		at the university				
Year of study	1	Language of instruction		Polish					
Semester of study	2	ECTS credits		4.0					
Learning profile	general academic profile		Assessment form		exam				
Conducting unit	Department of Manufacturing and Production Engineering -> Faculty of Mechanical Engineering and Ship Technology								
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. inż. Adam Boryczko						
	Teachers		dr hab. inż. Adam Boryczko mgr inż. Karolina Miętka						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM		
	Number of study hours	15.0	15.0	30.0	0.0	0.0	60		
	E-learning hours included: 0.0								
	Adresy na platformie eNauczanie: Metrologia - W/L/C, ZiLP, sem.02 (M:31810W0) - Moodle ID: 13448 https://enauzanie.pg.edu.pl/moodle/course/view.php?id=13448								
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM		
	Number of study hours	60		7.0		33.0	100		
Subject objectives	Students introduce measurement methods, determine instruments and measurement systems, make measurement, analyses results, determine error and uncertainty of measurements and evaluate measured workpiece.								
Learning outcomes	Course outcome		Subject outcome		Method of verification				
	K6_K03		evaluate and validate measured workpiece		[SK1] Assessment of group work skills [SK4] Assessment of communication skills, including language correctness				
	K6_U10		make measurement, analyses results		[SU4] Assessment of ability to use methods and tools [SU1] Assessment of task fulfilment				
	K6_W07		determine error and uncertainty of measurements		[SW1] Assessment of factual knowledge				
	K6_U05		evaluate measured workpiece		[SU1] Assessment of task fulfilment				
	K6_W12		introduce measurement methods, determine instruments and measurement systems		[SW1] Assessment of factual knowledge				
Subject contents	Importance of measurement in machining. Basic elements of metrology. Methods, errors and uncertainty of measurements. Tolerance and fit of lengths and angles. Methods of geometrical chains analysis. Principles of interchangeability of machine parts. Accuracy of workpiece in machining. Elements of geometrical product specifications, tolerances of form, directions and position. Characteristic of surface geometrical workpiece structure. Principles of geometrical fit. Measure standards and instruments of measurement. Coordinate measuring machine, arms measure and measurement systems. Automation of measurements. Non-contact laser measurement and reverse engineering.								

Prerequisites and co-requisites	No requirements				
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade		
	Lecture - examination	50.0%	50.0%		
	Tutorial	50.0%	25.0%		
	Laboratory	100.0%	25.0%
