

Subject card

Subject name and code	Engineering Project, PG_00050181						
Field of study	Engineering Management						
Date of commencement of studies	October 2020		Academic year of realisation of subject		2023/2024		
Education level	first-cycle studies		Subject group		Optional subject group Subject group related to scientific research in the field of study		
Mode of study	Part-time studies		Mode of delivery		at the university		
Year of study	4		Language of instruction		Polish		
Semester of study	8		ECTS credits		14.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Department of Management -> Faculty of Management and Economics						
Name and surname of lecturer (lecturers)	Subject supervisor		dr inż. Marzena Grzesiak				
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	0.0	0
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	0		24.0		326.0	350
Subject objectives	Preparation of an engineering project in accordance with the adopted assumptions.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K6_U10] uses tools to measure and improve technical solutions concerning: devices, objects, systems, processes, products and services		The student is able to use the tools appropriate to the implementation of an engineering project.		[SU2] Assessment of ability to analyse information [SU1] Assessment of task fulfilment		
	[K6_U13] can improve oneself through the systematic acquisition of knowledge and skills		The student can independently find and acquire knowledge and skills necessary to implement an engineering project.		[SU2] Assessment of ability to analyse information [SU1] Assessment of task fulfilment		
	[K6_W81] has knowledge of grammatical structures and lexical resources needed to communicate in foreign language in terms of general and specialist language related to field of study		The student is able to independently obtain and process information in a foreign language necessary for the preparation of an engineering project.		[SW3] Assessment of knowledge contained in written work and projects		
Subject contents	Selection of the method of solving the problem. Solving the problem and interpreting the results. Conclusions confirming the solution of the problem.						
Prerequisites and co-requisites	Registration for the graduation semester.						
Assessment methods and criteria	Subject passing criteria		Passing threshold		Percentage of the final grade		
	engineering project		51.0%		100.0%		
Recommended reading	Basic literature		Prepared in consultation with the supervisor.				
	Supplementary literature		Prepared in consultation with the supervisor.				
	eResources addresses		Adresy na platformie eNauczanie: SEMINARIUM DYPLOMOWE 23/24 - lato - Moodle ID: 37452 https://enauzanie.pg.edu.pl/moodle/course/view.php?id=37452				
Example issues/ example questions/ tasks being completed	Present a solution to the identified problem.						
Work placement	Not applicable
