

## Subject card

Subject name and code	Management of IT Resources in the Enterprise, PG_00044763						
Field of study	Engineering Management						
Date of commencement of studies	October 2020	Academic year of realisation of subject			2021/2022		
Education level	first-cycle studies	Subject group			Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	Part-time studies	Mode of delivery			blended-learning		
Year of study	2	Language of instruction			Polish		
Semester of study	3	ECTS credits			4.0		
Learning profile	general academic profile	Assessment form			exam		
Conducting unit	Department of Informatics in Management -> Faculty of Management and Economics						
Name and surname of lecturer (lecturers)	Subject supervisor	dr inż. Magdalena Ciesielska					
	Teachers	dr inż. Magdalena Ciesielska					
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	8.0	0.0	8.0	0.0	0.0	16
	E-learning hours included: 8.0						
	Adresy na platformie eNauczanie: ZZIT NS 2021/22 - Moodle ID: 16681 <a href="https://enauczanie.pg.edu.pl/moodle/course/view.php?id=16681">https://enauczanie.pg.edu.pl/moodle/course/view.php?id=16681</a>						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM		
	Number of study hours	16	8.0	76.0	100		
Subject objectives	The aim of the course is for the student to gain knowledge of IT resource management in a modern enterprise. The student will gain knowledge about: IT strategy, business-IT alignment, information and IT systems, modern technologies and their use in the enterprise. The course also includes the basic knowledge of corporate architecture, IT competence management, infrastructure management, IT service management, outsourcing and IT audit.						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	[K6_W12] has a basic knowledge of production management and occupational safety and ergonomics management, as well as information technologies necessary for engineering management				[SW2] Assessment of knowledge contained in presentation [SW3] Assessment of knowledge contained in written work and projects		
	[K6_U09] obtains data for analysis and interpretation of results using information technology				[SU1] Assessment of task fulfilment		
	[K6_U12] can design the process of exploitation of production and IT infrastructure with the use of appropriate methods, techniques and tools				[SU1] Assessment of task fulfilment [SU2] Assessment of ability to analyse information [SU4] Assessment of ability to use methods and tools [SU5] Assessment of ability to present the results of task		
Subject contents	IT strategies. Emerging technologies in organizations. Enterprise Architecture. Asset management. Service management. IT audit. IT Outsourcing.						
Prerequisites and co-requisites	none						

Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Laboratory	60.0%	50.0%
	Lecture	60.0%	50.0%
