

## Subject card

Subject name and code	Professional Training, PG_00044634						
Field of study	Ocean Engineering, Ocean Engineering						
Date of commencement of studies	October 2020		Academic year of realisation of subject		2022/2023		
Education level	first-cycle studies		Subject group		Obligatory subject group in the field of study		
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	3		Language of instruction		Polish		
Semester of study	6		ECTS credits		6.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Institute of Ocean Engineering and Ship Technology -> Faculty of Mechanical Engineering and Ship Technology						
Name and surname of lecturer (lecturers)	Subject supervisor		mgr inż. Jacek Frost				
	Teachers		mgr inż. Jacek Frost				
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	0.0	0
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	0		5.0		155.0	160
Subject objectives	professional practice						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[K6_K01] is aware of the need of constant improvement within the range of the possessed job and knows the possibilities of further education	The primary objective is the acquisition of professional practice practical skills, supporting and deepening the knowledge obtained by the student in the course of teaching at the university. Implementation of the practice creates an opportunity to confirm and develop the student's professional competence in the chosen field of study and / or specialization, as well as obtaining of domain knowledge and skills of practical application of knowledge and shaping the attitudes of potential employers and coworkers.	[SK5] Assessment of ability to solve problems that arise in practice [SK1] Assessment of group work skills
	[K6_U04] has self-education skills in order to improve professional qualifications, is ready to work in industrial environment, adheres to HSE rules and regulations	The primary objective is the acquisition of professional practice practical skills, supporting and deepening the knowledge obtained by the student in the course of teaching at the university. Implementation of the practice creates an opportunity to confirm and develop the student's professional competence in the chosen field of study and / or specialization, as well as obtaining of domain knowledge and skills of practical application of knowledge and shaping the attitudes of potential employers and coworkers.	[SU1] Assessment of task fulfilment [SU4] Assessment of ability to use methods and tools
	[K6_U81] is able to communicate appropriately in foreign language at B2 level of the Common European Framework of Reference for Languages (CEFR) in everyday life, in academic and professional environments	The primary objective is the acquisition of professional practice practical skills, supporting and deepening the knowledge obtained by the student in the course of teaching at the university. Implementation of the practice creates an opportunity to confirm and develop the student's professional competence in the chosen field of study and / or specialization, as well as obtaining of domain knowledge and skills of practical application of knowledge and shaping the attitudes of potential employers and coworkers.	[SU1] Assessment of task fulfilment [SU3] Assessment of ability to use knowledge gained from the subject
	[K6_K03] understands non-technical aspects and effects of operation as an engineer, its influence on the environment and is aware of the responsibilities for the decisions taken	The primary objective is the acquisition of professional practice practical skills, supporting and deepening the knowledge obtained by the student in the course of teaching at the university. Implementation of the practice creates an opportunity to confirm and develop the student's professional competence in the chosen field of study and / or specialization, as well as obtaining of domain knowledge and skills of practical application of knowledge and shaping the attitudes of potential employers and coworkers.	[SK3] Assessment of ability to organize work [SK1] Assessment of group work skills
Subject contents	1. Preliminary Activities - present company, the objectives and program practices, training, occupational safety and protection of personal collection, 2. Working for your business department, 3. Completion of the practice - the implementation of the report from the practice, the execution of formalities related to the completion and validation practice.		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
		100.0%	100.0%
Recommended reading	Basic literature	No	
	Supplementary literature	No
