

Subject card

Subject name and code	Project 2, PG_00041682						
Field of study	Transport and Logistics, Transport and Logistics						
Date of commencement of studies	October 2020		Academic year of realisation of subject		2022/2023		
Education level	first-cycle studies		Subject group		Optional subject group Subject group related to scientific research in the field of study		
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	3		Language of instruction		Polish		
Semester of study	6		ECTS credits		3.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Zakład Technologii Konstrukcji Okretu -> Institute of Ocean Engineering and Ship Technology -> Faculty of Mechanical Engineering and Ship Technology						
Name and surname of lecturer (lecturers)	Subject supervisor		prof. dr hab. inż. Janusz Kozak				
	Teachers		mgr inż. Paweł Szalewski				
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	30.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		10.0		35.0	75
Subject objectives	Project of infrastructure and suprastructure of transport company						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K6_W06] has an organized knowledge on engineering methods and design tools allowing the conducting of projects within the construction and operation of means and systems of transport		Student apply known methods and tools to solving the problem		[SW3] Assessment of knowledge contained in written work and projects		
	[K6_W05] has an organized knowledge on design, construction and operation of means and systems of transport		Student recognizes and knows issues and physical processes in relations to deigned object		[SW1] Assessment of factual knowledge		
	[K6_U06] in compliance with a formulated specification and with the aid of appropriate tools and methods, is able to complete a simple engineering task within the range of design, construction and operation of means and systems of transport		Has the ability to self-study in order to develop his professional qualifications. Can assess the usefulness of typical methods and tools, and select and apply the appropriate method and tools in the performance of a simple engineering task in the field of designing transport processes.		[SU4] Assessment of ability to use methods and tools		
Subject contents	Introduction, Selection by student of type of assessed company. Description of infra- and suprasctructure of company. Plan od arrangement of area. Elaboration of necessary documentation. Design and organisational requirements for implementation of project. Presentation.						
Prerequisites and co-requisites							
Assessment methods and criteria	Subject passing criteria		Passing threshold		Percentage of the final grade		
	project		60.0%		100.0%		
Recommended reading	Basic literature		Managing a Transport Business: Business Management in Transport 2, (Routledge Library Editions: Transport Economics Book 14) 1st Edition, Kindle Edition,by W.S. Barry,ISBN-13: 978-0415793186				
	Supplementary literature		Transport manager - periodic.				

	eResources addresses	<p>Uzupełniające</p> <p>Adresy na platformie eNauczanie:</p> <p>Praca projektowa II (PG_00041682), P, TiL, sem.06, letni 22/23 - Moodle ID: 28379</p> <p>https://enauczanie.pg.edu.pl/moodle/course/view.php?id=28379</p>
Example issues/ example questions/ tasks being completed		
Work placement	Not applicable
