

Subject card

Subject name and code	Rural planning , PG_00049160						
Field of study	Spatial Development						
Date of commencement of studies	October 2021	Academic year of realisation of subject			2021/2022		
Education level	first-cycle studies	Subject group			Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	1	Language of instruction			Polish		
Semester of study	2	ECTS credits			3.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Department of Environmental Design -> Faculty of Architecture						
Name and surname of lecturer (lecturers)	Subject supervisor	dr hab. inż. arch. Anna Górka					
	Teachers	dr hab. inż. arch. Anna Górka mgr inż. arch. Magdalena Szarejko					
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	0.0	0.0	30.0	0.0	45
	E-learning hours included: 0.0						
Projektowanie ruralistyczne GP 2021/2022 - Moodle ID: 23215 https://enauczanie.pg.edu.pl/moodle/course/view.php?id=23215							
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM		
	Number of study hours	45	5.0	25.0	75		
Subject objectives	The aim of the course is to provide knowledge about functional and cultural determinants of the rural areas management. Students acquire basic skills in rural spatial development planning.						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	K6_U04	takes stock of land use and development in rural areas; valorises the countryside's spatial resources; develops guidelines and makes conceptual sketches of rural spatial development plans			[SU1] Assessment of task fulfilment		
	[K6_W01] has knowledge related to theoretical and practical issues in the field of spatial management, the basics of planning and urban design and principles of local, regional and national development, and has basic knowledge about contemporary trends of development and revitalization of settlement structures and the life cycle of facilities and systems related to the functioning of settlement units	describes the conditions of development of rural and rural-urban areas; describes the historical development and features of the layout of selected forms of rural settlements; recognizes the diversity of the settlement system; knows the types of land use and land cover that are characteristic of rural area			[SW1] Assessment of factual knowledge		
[K6_K01] critically evaluates the received content; Recognizes the importance of knowledge in solving cognitive and practical problems; it reflects on the ethical, scientific and social aspects related to the urban planner and planner's work	correctly formulates problems to be solved; looks for methods and tools for solving problems in an orderly manner; clearly presents its own solutions			[SK2] Assessment of progress of work			

Subject contents	<p>Lectures</p> <ol style="list-style-type: none"> 1. Issues of rural planning 2. Outline of the history and rural settlement development conditions 3. Contemporary problems of rural functioning and planning <p>Projects</p> <ol style="list-style-type: none"> 1. Field and desk studies of the selected village 2. Identification and description of current spatial and social resources of the selected village 3. Record of visual impressions from the area 4. Identifying of the village spatial development stages 5. Inventory of the village land cover and use. Inventory of the village buildings 6. Valorisation of the space resources 7. The project of spatial transformation of the village
