

## Subject card

Subject name and code	DIPLOMA PROJECT- SEMINAR, PG_00044423						
Field of study	Engineering Management						
Date of commencement of studies	October 2021		Academic year of realisation of subject		2024/2025		
Education level	first-cycle studies		Subject group		Optional subject group Subject group related to scientific research in the field of study		
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	4		Language of instruction		Polish		
Semester of study	7		ECTS credits		5.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Department of Management -> Faculty of Management and Economics						
Name and surname of lecturer (lecturers)	Subject supervisor						
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	15.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	15		10.0		100.0	125
Subject objectives	Preparing students to write engineering thesis in the substantive scope (search literature, formulate the problem, data collection, selection methods of solution, interpretation of results) and formal scope (text preparation work in accordance with the applicable rules).						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K6_W81] has knowledge of grammatical structures and lexical resources needed to communicate in foreign language in terms of general and specialist language related to field of study						
	[K6_U10] uses tools to measure and improve technical solutions concerning: devices, objects, systems, processes, products and services						
	[K6_U13] can improve oneself through the systematic acquisition of knowledge and skills		Student is able to search for literature sources and data needed to solve engineering problems.		[SK5] Assessment of ability to solve problems that arise in practice		

Subject contents	The formal aspects of preparing a thesis.		
	The formulation of the research problem.		
	Finding and analyzing literature.		
	Collection of data from different sources: surveys, observations, statistics, documentation.		
	The choice of methods to solve the problem.		
	Solving the problem and interpretation of results.		
	Confirmation of solutions.		
Prerequisites and co-requisites	.		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
		51.0%	100.0%
Recommended reading	Basic literature	Literature agreed with the supervisor, in line with the theme of thesis.	
	Supplementary literature	.	
	eResources addresses	Adresy na platformie eNauczanie:	
Example issues/ example questions/ tasks being completed	..		
Work placement	Not applicable
