

Subject card

Subject name and code	Labour Process Organization, PG_00040527						
Field of study	Engineering Management						
Date of commencement of studies	October 2021	Academic year of realisation of subject			2022/2023		
Education level	first-cycle studies	Subject group			Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	Part-time studies	Mode of delivery			at the university		
Year of study	2	Language of instruction			Polish		
Semester of study	4	ECTS credits			4.0		
Learning profile	general academic profile	Assessment form			exam		
Conducting unit	Department of Informatics in Management -> Faculty of Management and Economics						
Name and surname of lecturer (lecturers)	Subject supervisor	dr inż. arch. Karolina Krause-Brykalska					
	Teachers	dr hab. Beata Basińska mgr inż. Jerzy Grabosz dr inż. arch. Karolina Krause-Brykalska					
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	8.0	0.0	16.0	0.0	0.0	24
E-learning hours included: 0.0							
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours		Self-study	SUM	
	Number of study hours	24	6.0		70.0	100	
Subject objectives	Mastering the skills of analyzing, modeling and simulating work processes using IT software						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	[K6_U08] analyses engineering and managerial solutions in decision-making processes, taking into account pro-quality and pro-environmental aspects, as well as safety of work processes	Uses assessment methods, modeling and simulation work using computer software company BOC Adonis and Profit.			[SU4] Assessment of ability to use methods and tools		
	[K6_W13] has a basic knowledge of the design, modelling and optimisation of technical processes and systems	It has a basic knowledge of mathematics, physics and chemistry, which is essential for proper solving technical problems.			[SW1] Assessment of factual knowledge		
	[K6_W12] has a basic knowledge of production management and occupational safety and ergonomics management, as well as information technologies necessary for engineering management	It has a basic knowledge of management, evaluation and categorization of work processes.			[SW3] Assessment of knowledge contained in written work and projects		
	[K6_U07] can work independently and in a team	Uses assessment methods, modeling and work using computer software			[SU1] Assessment of task fulfilment		
[K6_W02] has a basic knowledge of the different types of departments in the organisation, with particular emphasis on structures of an engineering nature	It has a basic knowledge of engineering analyzing, organizing, and improving the structure of work processes.			[SW3] Assessment of knowledge contained in written work and projects			

Subject contents	Lecture Assessment and analysis of the organization of work processes.; Standardization of time work processes.; Assessment and analysis of the human work load.; Suitability of operators to perform the work.; Concepts of extended work.; Evaluation and qualification of work processes.; Selection and optimization of resources in the systems of work.; Standardization of work processes. Laboratory Identification, notations and mapping of processes in Visio.; Modeling the allocation of activities and roles in the processes in ADONIS.; Techniques ETA and FTA of study of work processes in Visio.; Standardization of MTM technique norms in the program STATISTICA.; Analysis and simulation of the load process, in the program ADONIS.; Technology of shift work organization.; Methods of assessing and reducing of monotonous work.; Optimization of work processes and resources in the program SOLVER.																	
Prerequisites and co-requisites	Management Foundations of Computer Science Fundamentals of statistics																	
Assessment methods and criteria	<table border="1" data-bbox="451 535 1487 705"> <thead> <tr> <th data-bbox="451 535 794 568">Subject passing criteria</th> <th data-bbox="794 535 1137 568">Passing threshold</th> <th data-bbox="1137 535 1487 568">Percentage of the final grade</th> </tr> </thead> <tbody> <tr> <td data-bbox="451 568 794 602">Laboratory Rapports</td> <td data-bbox="794 568 1137 602">100.0%</td> <td data-bbox="1137 568 1487 602">40.0%</td> </tr> <tr> <td data-bbox="451 602 794 636">Midterm colloquium</td> <td data-bbox="794 602 1137 636">58.0%</td> <td data-bbox="1137 602 1487 636">20.0%</td> </tr> <tr> <td data-bbox="451 636 794 669">Written exam</td> <td data-bbox="794 636 1137 669">58.0%</td> <td data-bbox="1137 636 1487 669">20.0%</td> </tr> <tr> <td data-bbox="451 669 794 705">Exam</td> <td data-bbox="794 669 1137 705">58.0%</td> <td data-bbox="1137 669 1487 705">20.0%</td> </tr> </tbody> </table>			Subject passing criteria	Passing threshold	Percentage of the final grade	Laboratory Rapports	100.0%	40.0%	Midterm colloquium	58.0%	20.0%	Written exam	58.0%	20.0%	Exam	58.0%	20.0%
Subject passing criteria	Passing threshold	Percentage of the final grade																
Laboratory Rapports	100.0%	40.0%																
Midterm colloquium	58.0%	20.0%																
Written exam	58.0%	20.0%																
Exam	58.0%	20.0%
