

## Subject card

Subject name and code	Computer Science in Management, PG_00044151								
Field of study	Engineering Management								
Date of commencement of studies	October 2021		Academic year of realisation of subject			2021/2022			
Education level	first-cycle studies		Subject group			Obligatory subject group in the field of study			
						Subject group related to scientific research in the field of study			
Mode of study	Part-time studies		Mode of delivery			at the university			
Year of study	1		Language of instruction			Polish			
Semester of study	1		ECTS credits			3.0			
Learning profile	general academic profile		Assessment form			assessment			
Conducting unit	Department of Informatics in Management -> Faculty of Management and Economics								
Name and surname	Subject supervisor		mgr inż. Kamil Brodnicki						
of lecturer (lecturers)	Teachers		mgr inż. Kamil Brodnicki						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Projec	t	Seminar	SUM	
	Number of study hours	0.0	0.0	16.0	0.0		0.0	16	
	E-learning hours included: 0.0								
Learning activity and number of study hours	Learning activity	Participation in classes include plan		Participation in consultation hours		Self-study		SUM	
	Number of study hours	mber of study 16		6.0		53.0		75	
Subject objectives	Using office applications for business data processing								
Learning outcomes	Course out	Subject outcome			Method of verification				
	[K6_U09] obtains data for analysis and interpretation of results using information technology					[SU2] Assessment of ability to analyse information			
	[K6_W05] knows the statistical and IT methods and tools that enable the acquisition and presentation of data on the organisation's resources, including technical resources					[SW2] Assessment of knowledge contained in presentation			
A set of exercises using the potential of a spreadsheet in data processing and extracting information.							ation.		
	<ol> <li>Improving business tasks using IT applications.</li> <li>Importing external data, operations of data sorting and filtering, conditional formatting, pivot tables, subtotals.</li> <li>Functions (mainly mathematical, text, statistics, search and address). Nesting functions.</li> <li>Advanced data analysis using functions.</li> <li>Makros.</li> <li>Building applications in Excel with the use of formants.</li> </ol>								
Prerequisites and co-requisites	Basic knowledge of operating systems (like Windows) and office application (i.e. MS Excel)								
Assessment methods	Subject passin	g criteria	Passing threshold			Percentage of the final grade			
and criteria	Midterm colloquium		60.0%			100.0%
