GDAŃSK UNIVERSITY OF TECHNOLOGY

Subject card

Subject name and code	Computer Science in Management, PG_00044151		
Field of study	Engineering Management		
Date of commencement of studies	October 2021	Academic year of realisation of subject	2021/2022
Education level	first-cycle studies	Subject group	Obligatory subject group in the field of study
			Subject group related to scientific research in the field of study
Mode of study	Part-time studies	Mode of delivery	at the university
Year of study	1	Language of instruction	Polish
Semester of study	1	ECTS credits	3.0
Learning profile	general academic profile	Assessment form	assessment
Conducting unit	Department of Informatics in Management -> Faculty of Management and Economics		
Name and surname of lecturer (lecturers)	Subject supervisor	dr inż. Kamil Brodnicki	
	Teachers	dr inż. Kamil Brodnicki	

Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	16.0	0.0	0.0	16
	E-learning hours included: 0.0						
	Adresy na platformie eNauczanie:						

Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM
	Number of study hours	16	6.0	53.0	75

Subject objectives	Using office applications for business data processing

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[K6_U09] obtains data for analysis and interpretation of results using information technology	Student can use IT tools for data processing and analysing	[SU2] Assessment of ability to analyse information
	[K6_W05] knows the statistical and IT methods and tools that enable the acquisition and presentation of data on the organisation's resources, including technical resources	Student knows IT tools used for business problem solution	[SW2] Assessment of knowledge contained in presentation

Subject contents	A set of exercises using the potential of a spreadsheet in data processing and extracting information. EXCEL 1. Improving business tasks using IT applications. 2. Importing external data, operations of data sorting and filtering, conditional formatting, pivot tables, subtotals. 3. Functions (mainly mathematical, text, statistics, search and address). Nesting functions. 4. Advanced data analysis using functions. 5. Makros. 6. Building applications in Excel with the use of formants.

Prerequisites and co-requisites	Basic knowledge of operating systems (like Windows) and office application (i.e. MS Excel)

Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Midterm colloquium	60.0%	100.0%
