

Subject card

Subject name and code	Financial Mathematics, PG_00049700						
Field of study	Management						
Date of commencement of studies	October 2021	Academic year of realisation of subject			2022/2023		
Education level	first-cycle studies	Subject group			Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	2	Language of instruction			English		
Semester of study	4	ECTS credits			3.0		
Learning profile	general academic profile	Assessment form			exam		
Conducting unit	Department of Economic Analysis and Finance -> Faculty of Management and Economics						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Piotr Kasprzak				
	Teachers		dr Piotr Kasprzak				
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	30.0	0.0	0.0	0.0	30
	E-learning hours included: 0.0						
22/23 F. Math. STAC - Moodle ID: 29671 https://enauczanie.pg.edu.pl/moodle/course/view.php?id=29671							
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		6.0		39.0	75
Subject objectives	Introducing students to the basic mathematical concepts and tools used in finance and banking.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K6_U04] describes financial problems in different areas of the organisation's functioning		Student can see the financial aspects of the decisions taken in the company.		[SU2] Assessment of ability to analyse information [SU4] Assessment of ability to use methods and tools		
[K6_W08] has a basic knowledge of the methods and tools used to conduct research related to particular areas of business activity		Student knows the mathematical tools used to measure the impact of the time to value of money.		[SW1] Assessment of factual knowledge			
Subject contents	Time value of money introduction; Simple interest, discount rate, compound interest, continuous compounding; Nominal, equivalent, effective and average rate of interest; Inflation rate and real rate of interest; Valuation of short-term securities (bonds and other securities); Annuity immediate and annuity due ; Perpetuities; Annuities payable more and less frequently than interest is convertible; Payments varying in arithmetic and geometric progression; Repayment of debts analysis Valuation of short and long-term securities; Using a spreadsheet in financial mathematics.						
Prerequisites and co-requisites							
Assessment methods and criteria	Subject passing criteria		Passing threshold		Percentage of the final grade		
	Midterm test		60.0%		90.0%		
	Acitivites during the class		60.0%		10.0%		
Recommended reading	Basic literature		1.Kellison, S. G. (2008). Theory of interest. New York: McGraw-Hill. 2.Piasecki, K., Ronka-Chmielowiec W. (2011). Matematyka finansowa. Warszawa: C.H.
