

Subject card

Subject name and code	Spatial Planning with team project, PG_00048037						
Field of study	Environmental Engineering						
Date of commencement of studies	October 2021	Academic year of realisation of subject	2021/2022				
Education level	second-cycle studies	Subject group	Obligatory subject group in the field of study				
Mode of study	Part-time studies	Mode of delivery	at the university				
Year of study	1	Language of instruction	Polish				
Semester of study	1	ECTS credits	4.0				
Learning profile	general academic profile	Assessment form	assessment				
Conducting unit	Department of Geodesy -> Faculty of Civil and Environmental Engineering						
Name and surname of lecturer (lecturers)	Subject supervisor	dr inż. arch. Dominika Wróblewska					
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	20.0	0.0	0.0	10.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM		
	Number of study hours	30	4.0	70.0	104		
Subject objectives	The aim is to provide: the knowledge of the system and principles of spatial planning in Poland. spatial components and operations the ability of gathering and analysis of spatial data and defining the land development directions in conjunction to the existing regulations.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[K7_W02] has broadened and well-ordered knowledge of the current law on construction, water, environmental protection and planning and spatial planning.	has a basic knowledge of the law regarding to spatial planning	[SW1] Assessment of factual knowledge
	[K7_U01] can obtain information from literature, databases and other sources; can integrate the obtained information, interpret and critically evaluate them, draw conclusions, and formulate and comprehensively justify the opinions	can acquire information from literature, databases and other sources; is able to integrate the obtained information, make their interpretation and critical assessment, as well as draw conclusions and formulate and fully justify opinions	[SU1] Assessment of task fulfilment
	[K7_U04] is able to prepare and present a presentation on the implementation of a design or research task and to conduct a discussion on the presentation	can prepare and present a presentation on the implementation of a project or research task and lead a discussion regarding the presented presentation	[SU5] Assessment of ability to present the results of task
	[K7_U02] can work individually and in a team; can assess time to execute a task; can manage a small team in a way that ensures that the task is performed within the deadline	can work individually and in a team	[SU1] Assessment of task fulfilment
	[K7_U03] can elaborate detailed documentation presenting results of an experiment, design or research task; can prepare a paper to discuss the results	can develop detailed documentation of the results of the project task implementation	[SU1] Assessment of task fulfilment
Subject contents	<p>Introduction to land use planning: principles of planning, the planning system in Poland,</p> <p>Study of the Conditions and Directions of the Spatial Management of a Commune: the scope, development procedures, final output, legal impact and its application.</p> <p>Local Spatial Management Plan: the scope, development procedures, final output, legal impact and its application.</p> <p>Administrative Decision: scope, development procedures, final output, legal impact and its application.</p> <p>Basis of environmental protection in spatial planning. Chosen problems of spatial planning</p>		
Prerequisites and co-requisites	Autocad		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	moodle activity	0.0%	10.0%
	project	60.0%	70.0%
	final test	60.0%	20.0%
Recommended reading	Basic literature	<p>Spatial Planning and Land Development Act of 27 March 2003 (available on http://isap.sejm.gov.pl)</p> <p>Spatial documents regarding to analysed area</p>	

	Supplementary literature	<p>Cymerman R. (redakcja): „The basis of spatial and urban planning”, Wydawnictwo Uniwersytetu Warmińsko-Mazurskiego, Olsztyn 2010.</p> <p>Kwaśniak P.: „Local Spatial Management Plan in spatial planning system”, Wydawnictwo: LexisNexis, Warszawa 2011.</p> <p>Niewiadomski Z. (redakcja) „Spatial planning and development - comments”, Wydawnictwo C. H. Beck, Warszawa 2011.</p> <p>Jędraszko A. „Spatial development in Poland - the weaknesses and strengths of legislation”. Warszawa Wydawnictwo PLATAN, 2005 (available on web page).</p>
