

Subject card

Subject name and code		Intellectual Property Protection, PG_00048200						
Field of study		Civil Engineering						
Date of commencement of studies		October 2021	Academic year of realisation of subject			2024/2025		
Education level		first-cycle studies	Subject group			Obligatory subject group in the field of study Humanistic-social subject group		
Mode of study		Part-time studies	Mode of delivery			at the university		
Year of study		4	Language of instruction			Polish		
Semester of study		8	ECTS credits			1.0		
Learning profile		general academic profile	Assessment form			assessment		
Conducting unit		Faculty of Civil and Environmental Engineering						
Name and surname of lecturer (lecturers)		Subject supervisor		dr Elżbieta Walkiewicz				
		Teachers						
Lesson types and methods of instruction		Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
		Number of study hours	10.0	5.0	0.0	0.0	0.0	15
		E-learning hours included: 0.0						
Learning activity and number of study hours		Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours		Self-study		SUM
		Number of study hours	15	5.0		5.0		25
Subject objectives		Provide students with the basics of knowledge about intellectual property protection						
Learning outcomes		Course outcome	Subject outcome			Method of verification		
		[K6_U71] is able to apply knowledge from humanistic, social, economic or legal sciences in order to solve problems in a social environment	Is able, when formulating and solving life and professional situations, to notice and apply legal structures protecting intellectual property			[SU4] Assessment of ability to use methods and tools		
		[K6_W71] has general knowledge in humanistic, social, economic or legal sciences	He knows the basic concepts and principles of the humanities, including legal sciences, with particular emphasis on the protection of industrial property and copyright			[SW3] Assessment of knowledge contained in written work and projects		
		[K6_W06] knows the rules of constructing and dimensioning of building elements of: steel, reinforced concrete, wood, masonry.	Has general knowledge about building structures			[SW1] Assessment of factual knowledge		
		[K6_W07] has basic knowledge on natural processes (hydrological, hydraulic or geological) and its influence on building subsoil; understands specific aspects of surface and underground water, which constrains the design and exploitation of buildings and engineering objects	Has basic knowledge about natural processes			[SW1] Assessment of factual knowledge		
		[K6_W14] Has knowledge on basic enterprise, management and marketing in a company; knows labour norms in civil engineering and rules of construction organizing and management	Has basic knowledge about entrepreneurship			[SW1] Assessment of factual knowledge		

Subject contents	LECTURE Protection of creativity - historical outline. Intellectual property in legal doctrine. Industrial property law - general characteristics. Inventions, utility models, industrial designs - common provisions. Structure, organization and tasks of the Patent Office. Legal grounds for combating unfair competition. Acts of unfair competition. Copyright - the subject of copyright, the scope of protection and the conditions for its application. Subject of copyright. The content of copyright - moral and property copyrights. Fair use of works protected by copyright. TUTORIALS Basic legal concepts in the field of intellectual property protection. Inventions - detailed regulation. Trademarks, geographical indications and topographies of integrated circuits - introductory provisions. Patent Attorney. Conditions for the existence of copyright protection. Employer as the subject of copyright. Protection of scientific works. Protection of artistic, literary and musical works. Special protection for audiovisual works and computer programs. Plagiarism. Duration of economic copyrights and their transfer to other people. Related rights - general issues.		
Prerequisites and co-requisites	The student should have basic knowledge about the functioning of law		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	test	60.0%	100.0%
Recommended reading	Basic literature	E.Nowińska, U. Promińska, M.du Vall, Industrial property law. Regulations and overview, Warsaw 2003; J. Sobczak, Copyright and related rights, Warsaw - Poznań 2000; J. Sobczak, Polish Press Law, Poznań 1993.	
	Supplementary literature	The Act of February 4, 1994, copyright and related rights); The Act of June 30, 2000, Industrial Property Law. Act of April 11, 2001 on patent attorneys. The Act of January 26, 1984, the Press Law
