

Subject card

Subject name and code	Law in Civil Engineering, PG_00049150						
Field of study	Civil Engineering						
Date of commencement of studies	October 2021		Academic year of realisation of subject		2024/2025		
Education level	first-cycle studies		Subject group		Obligatory subject group in the field of study Humanistic-social subject group		
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	4		Language of instruction		Polish		
Semester of study	7		ECTS credits		1.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Department of Building Structures and Material Engineering -> Faculty of Civil and Environmental Engineering						
Name and surname of lecturer (lecturers)	Subject supervisor		mgr inż. Marek Zackiewicz				
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	0.0	0.0	0.0	0.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	15		2.0		8.0	25
Subject objectives	<i>awareness</i> that all professional activities are subject to legal regulations; <i>knowledge</i> of the use and application of law in the engineering profession - where to find the relevant regulations; <i>understanding</i> the legal responsibility of the engineer for his actions towards society, user, work environment and the natural environment; <i>ability</i> to apply the law in the independent exercise of the engineering profession, correct interpretation of the law and executive regulations.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K6_W15] Has knowledge of construction law and environmental impact of investment realisation		Knowledge of the basic laws in the field of construction.		[SW3] Assessment of knowledge contained in written work and projects [SW1] Assessment of factual knowledge		
	[K6_U11] knows and applies rules of construction law; can estimate risk of construction works and implement proper security routines; obeys the rules of occupational safety and health		Knowledge of construction regulations.		[SU2] Assessment of ability to analyse information [SU1] Assessment of task fulfilment		
Subject contents	To familiarize students with the basic provisions of the construction law - spatial planning, investment preparation and construction work, as well as the use of building structures. Overview of investment processes in administrative proceedings and preparation of students for future independent professional work.						
Prerequisites and co-requisites	Basic knowledge in the field of construction.						
Assessment methods and criteria	Subject passing criteria		Passing threshold		Percentage of the final grade		
	test		60.0%		100.0%		
Recommended reading	Basic literature		Current legal regulations in the field of construction law.				
	Supplementary literature		brak				
	eResources addresses		Adresy na platformie eNauczanie:				

Example issues/ example questions/ tasks being completed	Discuss investment processes in administrative proceedings.
Work placement	Not applicable
