

Subject card

Subject name and code	Traffic and transport studies, PG_00044645						
Field of study	Transport						
Date of commencement of studies	October 2021		Academic year of realisation of subject		2024/2025		
Education level	first-cycle studies		Subject group		Optional subject group Subject group related to scientific research in the field of study		
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	4		Language of instruction		Polish		
Semester of study	7		ECTS credits		3.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Department of Transportation Engineering -> Faculty of Civil and Environmental Engineering						
Name and surname of lecturer (lecturers)	Subject supervisor		dr inż. Wojciech Kuśtra				
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	15.0	0.0	15.0	0.0	45
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	45		5.0		25.0	75
Subject objectives	The aim of the course is to familiarise students with new ways of carrying out measurement, research work related to transport.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K6_W17] has proficiency in transport systems as appropriate for their specialty		The student is able to select types of transport research for selected transport systems. The student is able to determine the scope of research, the area of research conducted, typical errors in the process of transport research.		[SW3] Assessment of knowledge contained in written work and projects		
	[K6_W14] has basic knowledge of measurement techniques used to describe the phenomena which occur in transport structures and when means of transport are operated		The student will acquire knowledge related to the latest methods, techniques of carrying out measurement, research work related to transport. The student will carry out selected research related to the operation of transport systems.		[SW1] Assessment of factual knowledge		
	[K6_U12] able to select tools and methods, carry out assessments and simple tests of transport systems to an extent required of the specialty / learning profile		With the knowledge and skills related to transport surveys, the student will be able to carry out simple surveys to assess transport performance		[SU2] Assessment of ability to analyse information [SU1] Assessment of task fulfilment		
Subject contents	LECTURES: Comprehensive traffic studies. Traffic volume and speed surveys. Filling research in public transport. Pedestrian traffic surveys - analysis. Ferry service time studies. Parking research. Road surface surveys.						
Prerequisites and co-requisites							
Assessment methods and criteria	Subject passing criteria		Passing threshold		Percentage of the final grade		
	Laboratorium		100.0%		40.0%		
	Project		100.0%		40.0%		
	Lecture		50.0%		20.0%		
Recommended reading	Basic literature		1. Gaca S., Suchorzewski W., Tracz M., Traffic engineering. Theory and practice. WKŁ Warszawa 2009				

	Supplementary literature	<p>1. Institute of Transportation Engineers, Trip Generation Manua</p> <p>2. Richard E. Allsop, Michael G. H. Bell, Benjamin G. Heydecker Transportation And Traffic Theory</p> <p>3. Rumen Yordanov1 , Rosen Miletiev, Ilian Damyanov and Emil Iontchev, Measurement and analysis of the road traffic, Department of Electronics, Faculty of Electronic Engineering and Technologies</p>
	eResources addresses	Adresy na platformie eNauczenie:
Example issues/ example questions/ tasks being completed	1. Intensity measurement at the junction.2. Measurement of pedestrian volumes in the tunnel at the Central Station and at the Upland Gate.3. Measurement of filling and exchange in public transport standing at a stop or in a vehicle.4. Taffic conflict analysis.5. Surveys at commercial facilities.	
Work placement	Not applicable	

Document generated electronically. Does not require a seal or signature.
