

Subject card

Subject name and code	English Language, PG_00044155						
Field of study	Civil Engineering						
Date of commencement of studies	October 2021		Academic year of realisation of subject		2021/2022		
Education level	first-cycle studies		Subject group				
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	1		Language of instruction		English		
Semester of study	1		ECTS credits		2.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Language Centre -> Vice-Rector for Education						
Name and surname of lecturer (lecturers)	Subject supervisor		mgr Joanna Olszewska				
	Teachers		mgr Anna Kucharska-Raczunas				
			mgr Anita Mieszkowska				
			mgr Janina Badocha				
			mgr Jolanta Maciejewska				
			mgr Krzysztof Lis				
			mgr Aleksandra Lis				
			mgr Jarosław Nieszczołkowski				
			dr Iwona Mokwa-Tarnowska				
			mgr Małgorzata Fenc				
			mgr Witold Zbirohowski-Kością				
			mgr Martyna Michalska-Pieniak				
			mgr Marzena Grygiel				
			mgr Joanna Olszewska				
mgr Marek Adamczyk							
mgr Joanna Pawlik							
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	30.0	0.0	0.0	0.0	30
	E-learning hours included: 0.0						
	Adresy na platformie eNauczanie:						
	Additional information:						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		5.0		25.0	60
Subject objectives	Development and consolidation of English language command, including reading, speaking, listening, writing and translation in a technical environment.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[K6_U82] is able to obtain and process information related to field of study and academic environment in foreign language at B2 level of the Common European Framework of Reference for Languages (CEFR)	Deepening reading comprehension of original academic and professional texts.	[SU4] Assessment of ability to use methods and tools
	[K6_U81] is able to communicate appropriately in foreign language at B2 level of the Common European Framework of Reference for Languages (CEFR) in everyday life, in academic and professional environments	Deepening knowledge of basic and specialist terms and expressions used in technical and academic language as well as the language of work. Exercises concerning lexical structures, describing the physical properties of materials, shapes, basic mathematical terminology, interpreting figures and diagrams, and explaining processes. Introduction of specialist language in the field of Civil Engineering	[SU4] Assessment of ability to use methods and tools
	[K6_K82] is equipped to participate in lectures, seminars and laboratory classes conducted in foreign language	Practising skills in writing various texts essential in academic and work environments, including: reports, CVs, emails, summaries, notes, abstracts, instructions and descriptions of processes.	[SK3] Assessment of ability to organize work
	[K6_K81] is able to cooperate in international team	Practising communication skills in academic and work environments, such as: the giving of presentations, job interviews, formal and informal conversations, negotiating, presenting arguments, solving problems, participating in case studies, conducting formal meetings, etc. Practising the correct pronunciation and intonation of expressions.	[SK1] Assessment of group work skills
	[K6_W81] has knowledge of grammatical structures and lexical resources needed to communicate in foreign language in terms of general and specialist language related to field of study	Using grammar appropriate to the given language level. Learning of structures essential for written and verbal communication in academic and professional environments.	[SW3] Assessment of knowledge contained in written work and projects

Subject contents	<p>Deepening knowledge of basic and specialist terms and expressions used in technical and academic language as well as the language of work. Exercises concerning lexical structures, describing the physical properties of materials, shapes, basic mathematical terminology, interpreting figures and diagrams, and explaining processes. Introduction of specialist language in the field of <i>Building Structure and Material Engineering</i> .</p> <p>Grammar:</p> <p>Using grammar appropriate to the given language level. Learning of structures essential for written and verbal communication in academic and professional environments.</p> <p>Writing:</p> <p>Practising skills in writing various texts essential in academic and work environments, including: reports, CVs, emails, summaries, notes, abstracts, instructions and descriptions of processes.</p> <p>Reading:</p> <p>Deepening reading comprehension of original academic and professional texts.</p> <p>Listening:</p> <p>Developing listening comprehension skills concerning workplace, academic and everyday life situations, such as: telephone conversations, interviews, customer service, lectures and presentations.</p> <p>Speaking:</p> <p>Practising communication skills in academic and work environments, such as: the giving of presentations, job interviews, formal and informal conversations, negotiating, presenting arguments, solving problems, participating in case studies, conducting formal meetings, etc. Practising the correct pronunciation and intonation of expressions.</p>
Prerequisites and co-requisites	<p>Before joining a language group at a particular level, the student must first attain the preceding level, i.e. A1 before joining an A2 group, A2 before joining B1, B1 before joining B2, B2 before joining C1 and C1 before joining C2.</p>

Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	writing	60.0%	20.0%
	tests	60.0%	60.0%
	class participation/speaking	60.0%	20.0%
