

Subject card

Subject name and code	Metrology I, PG_00053194								
Field of study	Electrical Engineering								
Date of commencement of studies	October 2021		Academic year of realisation of subject			2021/2022			
Education level	first-cycle studies		Subject group			Obligatory subject group in the field of study Subject group related to scientific research in the field of study			
Mode of study	Part-time studies		Mode of delivery			at the university			
Year of study	1		Language of instruction			Polish			
Semester of study	2		ECTS credits			4.0			
Learning profile	general academic profile		Assessment form			exam			
Conducting unit	Department of Metrology and Information Systems -> Faculty of Electrical and Control Engineering						eering		
Name and surname of lecturer (lecturers)	Subject supervisor dr inż. Marek Wołoszyk								
	Teachers		dr inż. Marek Wołoszyk						
		dr inż. Beata Pałczyńska							
Lesson types and methods	Lesson type	Lecture	Tutorial	Laboratory	Projec	t	Seminar	SUM	
of instruction	Number of study hours	20.0	0.0	0.0	0.0		0.0	20	
	E-learning hours included: 0.0								
	Adresy na platformie eNauczanie:								
Learning activity and number of study hours	Learning activity Participation in classes include plan				Self-study		SUM		
	Number of study hours	20		15.0		65.0		100	
Subject objectives	Acquiring fundamental knowledge on the theory of measurement as well as methods and measurement systems used in electrical engineering.								
Learning outcomes	Course outcome		Subject outcome			Method of verification			
			Student correctly selects standard measuring instruments. Student is able to use current literature sources in order to supplement and to develop his or her knowledge.			[SK5] Assessment of ability to solve problems that arise in practice			
	K6_U02					[SU1] Assessment of task fulfilment			
	K6_W05		Student selects appropriate measurement tools for testing of various electrical parameters. Student describes the methods of evaluation of measurement faults and calculates measurement uncertainty.			[SW3] Assessment of knowledge contained in written work and projects			
Subject contents	LECTURE Meaning and tasks of Metrology. Measurement services. Units in measurement. Elaboration of experiment measurement results. Measurement error theory. Systematic, random and insensibility inaccuracy. Inaccuracy classes. Measurement uncertainty definition. Analog electric meters. DC and AC measurement bridges. RLC measurements. Compensation methods. Power measurements of 1 and 3-phase devices in electric power engineering. Reactive power measurements. Electrical energy measurements. Digital and analog measurement of electronic systems. Principles of measurement of electronic systems (amplifier, standarizing devices, basic transducers and analog filters). Principles of ADC and DAC methods. Digital measurement of voltage, frequency and time. Analog and digital oscilloscope. The basics of magnetic measurement. Principles of operational tests in electrical engineering.								
Prerequisites and co-requisites	Basic knowledge of electrical engineering and electrical circuit analysis.								
Data wydruku: 05 05 2024	00:27					Strona	1 7 2		

Data wydruku: 05.05.2024 09:37 Strona 1 z 2

Assessment methods	Subject passing criteria	Passing threshold	Percentage of the final grade				
and criteria	Exam	60.0%	100.0%				
Recommended reading	Basic literature	1. Chwaleba A., Poniński M., Siedlecki A.: Metrologia elektryczna. WNT, 2003.					
		2. Turmański S.: Technika pomiarowa. WNT, 2007.					
	Supplementary literature	1. Stabrowski M.: Miernictwo elektryczne. Cyfrowa technika pomiarowa. Oficyna Wydawnicza Politechniki Warszawskiej, 1999.2. Piotrowski J.: Podstawy miernictwa. WNT, 2002.					
	eResources addresses						
Example issues/ example questions/ tasks being completed	Discuss the measurement of error band Wheatstone bridge.						
	2. Provide a system for the measurement of reactive power in a 3-wire electrical network.						
	3. Discuss the operation of the A / D converter type compensation.						
	Discuss the requirements for proper measurement of earth resistance.						
Work placement	Not applicable
