

Subject card

Subject name and code	Diploma Seminar, PG_00037525								
Field of study									
•	Technical Physics								
Date of commencement of studies	October 2021		Academic year of realisation of subject			2024/2025			
Education level	first-cycle studies		Subject gro	Subject group			Optional subject group		
						Subject group related to scientific research in the field of study			
Mode of study	Full-time studies		Mode of delivery			at the university			
Year of study	4		Language of instruction			Polish			
Semester of study	7		ECTS credits			3.0			
Learning profile	general academic profile		Assessment form			assessment			
Conducting unit	Katedra Fizyki Teoretycznej i Informatyki Kwantowej -> Faculty of Applied Physics and Mathematics						natics		
Name and surname	Subject supervisor	Subject supervisor prof. dr hab. Anna Perelomova							
of lecturer (lecturers)	Teachers		prof. dr hab. Anna Perelomova						
Lesson types and methods	Lesson type	Lecture	Tutorial	Laboratory	Projec	t	Seminar	SUM	
of instruction	Number of study hours	0.0	0.0	0.0	0.0		30.0	30	
	E-learning hours included: 0.0								
Learning activity and number of study hours	Learning activity	Participation in classes include plan		Participation in consultation hours		Self-study		SUM	
	Number of study hours	30	10.0		35.0		75		
Subject objectives	Preparing for writing and defense of the diploma thesis.								
Learning outcomes	Course outcome		Subject outcome			Method of verification			
			In the presentation, a student discusses interests related to the field of study and the motivation for choosing the topic of the diploma thesis			[SU5] Assessment of ability to present the results of task			
	K6_U01		The student is involved in discussions on presentations of colleagues presenting progress in engineering work. A student prepares to the dyploma examination.			[SU1] Assessment of task fulfilment [SU4] Assessment of ability to use methods and tools			
K6_K05		joint presentation with a colleague			[SK1] Assessment of group work skills [SK4] Assessment of communication skills, including language correctness				
Subject contents		_		_	_	_			
	The seminar is based on individual preparation and implementation of an engineering diploma thesis - from defining tasks, theoretical analysis, searching for literature up to presentation at the diploma exam and answering exam questions. Presentation and discussion of the method of developing research results, editing the work and presenting a full audiovisual presentation is required.								
Prerequisites and co-requisites									

Data wygenerowania: 23.11.2024 18:05 Strona 1 z 2

Assessment methods	Subject passing criteria	Passing threshold	Percentage of the final grade			
and criteria	Presentation	50.0%	100.0%			
Recommended reading	Basic literature	None The bibliography list is discussed with the supervisor individually.				
	Supplementary literature	None				
	eResources addresses	Adresy na platformie eNauczanie:				
Example issues/ example questions/ tasks being completed	Presentation of methods used in processing research results, answers to the examination tasks.					
Work placement	Not applicable					

Document generated electronically. Does not require a seal or signature.
