

SDAŃSK UNIVERSITY 的 OF TECHNOLOGY

Subject card

Subject name and code	Professional practice, PG_00049394								
Field of study	Materials Engineering, Materials Engineering, Materials Engineering								
Date of commencement of studies	October 2021		Academic year of realisation of subject			2023/2024			
Education level	first-cycle studies		Subject group			Optional subject group			
Mode of study	Full-time studies		Mode of delivery			at the university			
Year of study	3		Language of instruction			Polish			
Semester of study	6		ECTS credits			6.0			
Learning profile	general academic profile		Assessment form			assessment			
Conducting unit	Department of Chemistry and Technology of Functional Materials -> Faculty of Chemistry								
Name and surname	Subject supervisor dr inż. Radosław Pomećko								
of lecturer (lecturers)	Teachers		dr inż. Marek Augustyniak						
		dr inż. Radosław Pomećko							
		dr inż Beata Maikowska-Marzec							
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project		Seminar	SUM	
	Number of study 0.0		0.0	0.0			0.0	0	
	E-learning hours included: 0.0								
Learning activity and number of study hours	Learning activity Participation in classes include		didactic Participation in ed in study consultation hours		Self-study SUM				
	Number of study 0 hours			5.0		155.0		160	
Subject objectives	The main task of practice is to evaluate and improve the technological skills and abilities of the student, which were acquired during the studies. The practice gives the chance to apply those skills in the technological processes in environment of the production plant.								
Learning outcomes	Course outcome		Subject outcome			Method of verification			
	K6_U11		The student is aware of influence of technological activity on natural environment. The student is able to identify the threats, and propose the methods to solve them.			[SU1] Assessment of task fulfilment [SU4] Assessment of ability to use methods and tools			
	K6_U03		The student can analyze given problems and data, to find the right the solution.			[SU5] Assessment of ability to present the results of task			
	K6_U10		The student has the knowledge and abilities to solve given technological problems.			[SU1] Assessment of task fulfilment			
	K6_K02		The student effectively applies the appropriate knowledge and abilities to complete the given tasks			[SK5] Assessment of ability to solve problems that arise in practice [SK1] Assessment of group work skills			
Subject contents	The main task of practice is to evaluate and improve the technological skills and abilities of the student, which were acquired during the studies. The practice gives the chance to apply those skills in the technological processes in environment of the production plant.								
Prerequisites and co-requisites	The student has appropriate knowledge of materials engineering								
Assessment methods	Subject passing criteria		Passing threshold			Percentage of the final grade			
and criteria			100.0%			50.0%			
			60.0%			40.0%			
			100.0%			10.0%			

Recommended reading	Basic literature	The rules of students practice at Faculty of Chemistry, Gdansk University of Technology,(https://chem.pg.edu.pl/studenci/praktyki- istaze). BHP guidance, technological statements and other materials given by the host institution.				
	Supplementary literature	Not indicated.				
	eResources addresses	Adresy na platformie eNauczanie:				
Example issues/ example questions/ tasks being completed						
Work placement	Not applicable
