

Subject card

Information Technology, PG_00055182								
Mechanical Engineering								
October 2021		Academic year of realisation of subject			2021/2022			
first-cycle studies		Subject group			Obligatory subject group in the field of study			
Part-time studies		Mode of delivery			e-learning			
1		Language of instruction			Polish			
1		ECTS credits			2.0			
general academic profile		Assessment form			assessment			
Department of Manufacturing and Production Engineering -> Faculty of Mechanical Engineering and Ship Technology							ring and Ship	
Subject supervisor		dr inż. Tadeusz Bocheński						
Teachers		dr hab. inż. Stefan Dzionk						
dr inż. Dawid Zieliński								
	dr inż. Tadeu							
Lesson type	Lecture	Tutorial	Laboratory	Projec	t	Seminar	SUM	
Number of study	0.0	15.0	0.0	0.0		0.0	15	
	lded: 15.0							
-								
Learning activity Participation in classes include				Self-study SUM		SUM		
Number of study hours	15		5.0		30.0		50	
The basic knowledge in the area of information technology - IT.								
Course outcome		Subject outcome			Method of verification			
complementing the knowledge throughout the whole life, is able to select proper methods of teaching and learning, critically		Skills in the use of IT techniques in the field of systems and equipment. Ability to work independently			[SK2] Assessment of progress of work			
importance of professional conduct and following the rules of professional ethics; is able to show resourcefulness and innovation in the realisation of professional projects Formal methods of information engineering, electronic documents and digital libraries (1). Note that the professional projects is used to manage the professional projects. Formal methods of information engineering, electronic documents and digital libraries (1). Note that the professional projects is used to manage that the professional projects is used to manage that the professional projects is used to manage that the professional projects in the professional projects is used to manage that the professional projects is able to show resource full professional projects.				ness, e-man ne reliability a ta Analysis (1 to manage tl	ufacturing (2). and security, b). Manage the processes of
