

Subject card

Subject name and code	Team Project, PG_00047851						
Field of study	Informatics						
Date of commencement of studies	October 2021	Academic year of realisation of subject			2023/2024		
Education level	first-cycle studies	Subject group			Optional subject group Subject group related to scientific research in the field of study		
Mode of study	Part-time studies	Mode of delivery			at the university		
Year of study	3	Language of instruction			Polish		
Semester of study	5	ECTS credits			4.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Department of Geoinformatics -> Faculty of Electronics, Telecommunications and Informatics						
Name and surname of lecturer (lecturers)	Subject supervisor	dr inż. Mariusz Szwoch					
	Teachers	dr inż. Mariusz Szwoch					
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	45.0	0.0	45
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	45		5.0		50.0	100
Subject objectives	Developing an IT project using appropriate information technology and IT project management methods.						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	[K6_U11] can plan and organise individual and team work	student understands the role of management in the project, knows and applies the selected method of group work management, supervision over the production of project documentation			[SU1] Assessment of task fulfilment		
	[K6_U09] can carry out a critical analysis of the functioning of existing technical solutions and assess these solutions, as well as apply experience related to the maintenance of technical systems, devices and facilities typical for the field of studies, gained in the professional engineering environment	student is able to suggest a solution to an engineering problem related to the task being carried out on the basis of an analysis of source materials			[SU2] Assessment of ability to analyse information		
	[K6_K03] is ready to meet social obligations, co-organise activities for the social environment, initiate actions for the public interest, think and act in an entrepreneurial way	student makes a risk assessment and is able to assess the effects of their activities			[SK2] Assessment of progress of work		
[K6_U81] is able to communicate appropriately in everyday life, in academic and professional environments	student has the skills to communicate correctly in everyday life situations and in the academic and professional environment			[SU2] Assessment of ability to analyse information			
Subject contents	Implementation of the project team conceived as an advanced IT task placed before the student team consisting of 2-4 students.						
Prerequisites and co-requisites	No requirements						
Assessment methods and criteria	Subject passing criteria	Passing threshold			Percentage of the final grade		
	Project	50.0%			100.0%		

Recommended reading	Basic literature	Bibliography selected individually by the tutor
	Supplementary literature	Bibliography selected individually by the tutor
