

关。GDAŃSK UNIVERSITY 创 OF TECHNOLOGY

Subject card

	Broject 2, BC, 00044692								
Subject name and code	Project 2, PG_00041682								
Field of study	I ransport and Logistics								
Date of commencement of studies	October 2021		Academic year of realisation of subject			2023/2024			
Education level	first-cycle studies		Subject group			Optional subject group			
						Subject group related to scientific research in the field of study			
Mode of study	Full-time studies		Mode of delivery			at the university			
Year of study	3		Language of instruction			Polish			
Semester of study	6		ECTS credits			3.0			
Learning profile	general academic profile		Assessment form			assessment			
Conducting unit	Institute of Ocean Engineering and Ship Technology -> Faculty of Mechanical Engineering and Ship Technology					l Ship			
Name and surname of lecturer (lecturers)	Subject supervisor		prof. dr hab. inż. Janusz Kozak						
	Teachers		mgr inż. Paweł Szalewski						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Projec	t	Seminar	SUM	
	Number of study hours	0.0	0.0	0.0	30.0		0.0	30	
	E-learning hours included: 0.0								
Learning activity and number of study hours	Learning activity	Participation in classes includ plan	n didactic ed in study	Participation in consultation hours		Self-study		SUM	
	Number of study hours	30		10.0		35.0		75	
Subject objectives	Project of infastructure and suprastructure of transport company								
Learning outcomes	Course out	Subject outcome			Method of verification				
	[K6_U06] in compliance with a formulated specification and with the aid of appropriate tools and methods, is able to complete a simple engineering task within the range of design, construction and operation of means and systems of transport		Has the ability to self-study in order to develop his professional qualifications. Can assess the usefulness of typical methods and tools, and select and apply the appropriate method and tools in the performance of a simple engineering task in the field of designing transport processes.			[SU4] Assessment of ability to use methods and tools			
	[K6_W05] has an organized knowledge on design, construction and operation of means and systems of transport		Student recognizes and knows issues and physical processes in relations to deigned object			[SW1] Assessment of factual knowledge			
	[K6_W06] has an organized knowledge on engineering methods and design tools allowing the conducting of projects within the construction and operation of means and systems of transport		Student apply known methods and tools to solving the problem			[SW3] Assessment of knowledge contained in written work and projects			
Subject contents	Introduction, Selection by student of type of assessed company. Description of infra- and suprasctructure of company. Plan od arrangement of area. Elaboration of necessary documentation. Design and organisational requirements for implementation of project. Presentation.								
Prerequisites and co-requisites									
Assessment methods and criteria	Subject passing criteria		Passing threshold			Percentage of the final grade			
	project		60.0%			100.0%			
Recommended reading	Basic literature		Managing a Transport Business: Business Management in Transport 2, (Routledge Library Editions: Transport Economics Book 14) 1st Edition, Kindle Edition,by W.S. Barry,ISBN-13: 978-0415793186						
	Supplementary literature		Transport manager - periodic.
