GDAŃSK UNIVERSITY OF TECHNOLOGY

Subject card

Subject name and code	English I, PG_00027665		
Field of study	Materials Engineering, Materials Engineering, Materials Engineering, Materials Engineering		
Date of commencement of studies	October 2020	Academic year of realisation of subject	2021/2022
Education level	first-cycle studies	Subject group	
Mode of study	Full-time studies	Mode of delivery	at the university
Year of study	2	Language of instruction	English
Semester of study	3	ECTS credits	2.0
Learning profile	general academic profile	Assessment form	assessment
Conducting unit	Language Centre -> Vice-Rector for Education		
Name and surname of lecturer (lecturers)	Subject supervisor	mgr Małgorzata Hincke-Uszacka	
	Teachers	mgr Dorota Horowska mgr Hanna Rembowska mgr Joanna Pawlik	

Lesson types and methods of instruction

Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
Number of study hours	0.0	30.0	0.0	0.0	0.0	30

E-learning hours included: 0.0

Address on the e-learning platform: https://enauczanie.pg.edu.pl/moodle/course/view.php?id=11446#section-0
Adresy na platformie eNauczanie:

Additional information:

Learning activity and number of study hours

Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM
Number of study hours	30	0.0	0.0	30

Subject objectives

Students reach B2 or C1 level of general English with the elemenst of engineering vocabulary and topic areas.The course additionally covers basic aspects of the specialised language relevant to the field of study. It is concluded with the ACERT exam.

Learning outcomes

Course outcome	Subject outcome	Method of verification
[K6_U81] is able to communicate appropriately in foreign language at B2 level of the Common European Framework of Reference for Languages (CEFR) in everyday life, in academic and professional environments	Students will be able to communicate in English and collaborate to produce a group project.	[SU3] Assessment of ability to use knowledge gained from the subject
[K6_K81] is able to cooperate in international team	Students will be able to: • communicate in daily life and in an academic and professional environment; • understand specialist literature and technical instructions; • understand speeches and lectures.	[SK4] Assessment of communication skills, including language correctness
[K6_K82] is equipped to participate in lectures, seminars and laboratory classes conducted in foreign language	Students will be able to: • communicate in English at university, in the workplace and in other environments • understand speeches and lectures related to technical subjects.	[SK5] Assessment of ability to solve problems that arise in practice
[K6_U82] is able to obtain and process information related to field of study and academic environment in foreign language at B2 level of the Common European Framework of Reference for Languages (CEFR)	Students will be able to • understand specialist literature and technical instructions; • understand speeches and lectures.	[SU4] Assessment of ability to use methods and tools [SU5] Assessment of ability to present the results of task
[K6_W81] has knowledge of grammatical structures and lexical resources needed to communicate in foreign language in terms of general and specialist language related to field of study	Students will be able to: • gain information from various sources without violating copyright law; • use specialist vocabulary in speaking and writing; • understand, analyse and translate technical texts written in English; • use formal English;	[SW1] Assessment of factual knowledge

Subject contents

Vocabulary:

Developing general knowledge of the language and introducing specialist terms and expressions used in the field of Production Engineering.

Grammar:

Developing B2/C1 level grammar structures essential for written and verbal communication.

Writing:

Practising skills in writting various formal and informal texts such as reports, emails, CVs, notes, instructions, descriptions of processes.

Reading:

Developing various reading techniques indispensable for dealing with general and professional texts.

Listening:

Developing listening comprehension skills necessary in workplace and everyday life situations such as telephone conversations, interviews, customer service communication, lectures and presentations.

Speaking:

Practising general and specialist language communication skills such as presenting arguments, solving problems, participating in case studies, holding formal and informal conversations and job interviews. Practising the correct pronunciation and intonation of expressions.
