

Subject card

Subject name and code	Diploma Seminar, PG_00055299								
Field of study	Ocean Engineering								
Date of commencement of studies	October 2021		Academic year of realisation of subject		2024/2025				
Education level	first-cycle studies		Subject group		Optional subject group				
Mode of study	Full-time studies		Mode of delivery		at the university				
Year of study	4		Language of instruction		Polish				
Semester of study	7		ECTS credits			2.0			
Learning profile	general academic profile		Assessment form			assessment			
Conducting unit	Faculty of Ocean Engineering and Ship Technology								
Name and surname	Subject supervisor prof. dr hab. inż. Zbigniew Korczewski								
of lecturer (lecturers)	Teachers								
Lesson types and methods	Lesson type	Lecture	Tutorial	Laboratory	ratory Project		Seminar	SUM	
of instruction	Number of study hours	0.0	0.0 0.0			15.0	15		
	E-learning hours inclu	uded: 0.0				•		_	
Learning activity and number of study hours	Learning activity	Participation in classes include plan		Participation in consultation hours		Self-study		SUM	
	Number of study hours	15	5.0			30.0		50	
Subject objectives	Acquiring the ability to prepare and present a diploma thesis								
Learning outcomes	Course out	Subj	Subject outcome		Method of verification				
	and in a team, communicate through various techniques in professional environment and also record, analyse, and present the results of work, can estimate the time needed to complete a given task		engineering report in the field of construction and operation of ocean engineering devices.			present the results of task			
	[K6_U01] can obtain information from literature, databases and other sources, can verify and organize the obtained information, interpret them and form conclusions and justified opinions		He follows professional literature and uses the acquired knowledge in practice, thus increasing his skills and engineering experience.			[SU4] Assessment of ability to use methods and tools			
	constant improvement range of the possess	istant improvement within the ige of the possessed job and lows the possibilities of further lucation		He understands the need to constantly improve his knowledge and engineering skills to keep up with the dynamic global development of technology and technology in the field of construction and operation of ocean engineering devices.		[SK2] Assessment of progress of work			
Subject contents	Acquainting students with the form of writing a thesis and preparing a presentation. Each student presents the next stages of their diploma thesis during the class. The presented content, both descriptive and in the form of drawing documentation and calculations, is the subject of discussion and preliminary assessment. This allows you to improve your skills in presenting technical issues, and also allows you to correct any errors and shortcomings on an ongoing basis								
Prerequisites and co-requisites	Knowledge and skills in the field of subjects taught in the field of study and specialization.								
Assessment methods and criteria	Subject passing criteria		Passing threshold 60.0%		Percentage of the final grade 100.0%				
Recommended reading	Basic literature		Literature selected for the subject of the diploma thesis						
J	Supplementary literature		Supplementary literature on the methodology of writing diploma these				oloma theses.
