

Subject card

Subject name and code	BSc Diploma Project, PG_00055519								
Field of study	Mechatronics								
Date of commencement of	October 2021 Academic year of 2024/2025								
studies			realisation of subject			2024/2020			
Education level	first-cycle studies		Subject group		Optional subject group				
						Subject group related to scientific research in the field of study			
Mode of study	Full-time studies		Mode of delivery			at the university			
Year of study	4		Language of instruction			Polish			
Semester of study	7		ECTS credits			16.0			
Learning profile	general academic profile		Assessment form			assessment			
Conducting unit	Institute of Mechanics	and Machine		Design -> Faculty of Mechanical Engineering and Ship Technology			echnology		
Name and surname	Subject supervisor		dr hab. inż. Ryszard Jasiński						
of lecturer (lecturers)	Teachers			<u>, </u>					
Lesson types and methods	Lesson type	Lecture	Tutorial	Laboratory	Projec	:t	Seminar	SUM	
of instruction	Number of study hours	0.0	0.0	0.0	0.0		0.0	0	
	E-learning hours included: 0.0								
Learning activity and number of study hours	Learning activity	Participation in classes including plan		Participation in consultation hours		Self-study		SUM	
	Number of study hours	0		25.0		375.0		400	
Subject objectives	Preparation by the student of an engineering diploma project with a topic and scope defined by the thesis supervisor								
Learning outcomes	Course outcome		Subject outcome			Method of verification			
	[K6_U11] is able to evaluate usefulness of methods and tools to solve simple, practical engineering task, distinctive for mechatronics and is able to choose the proper method and tools		Student performs, using appropriate methods and tools necessary calculations, research, analysis and comparison in order to solve a practical engineering task.			[SU3] Assessment of ability to use knowledge gained from the subject [SU4] Assessment of ability to use methods and tools [SU1] Assessment of task fulfilment			
	[K6_U08] is able - according to a given specification - design, calculate costs and develop a simple device, object, system or process typical for mechatronics, using approproate methods, techniques and tools		Student prepares a diploma project. Organizes the design work of a device, object, system or process typical of mechatronics.			[SU4] Assessment of ability to use methods and tools [SU1] Assessment of task fulfilment			
	[K6_U01] is able to acquire infromation form literature, databases and other, properly choosen sources, integrate these infomration, interpret them, draw conclusions and formulate opinions		Student prepares a critical review of literature and solutions related to the topic of the work using publications in Polish or a foreign language.			[SU2] Assessment of ability to analyse information [SU5] Assessment of ability to present the results of task			
			The student independently prepares an engineering diploma project using various sources, e.g. obtaining the necessary information from the literature.			[SU2] Assessment of ability to analyse information [SU4] Assessment of ability to use methods and tools			
	[K6_U06] is able to identify and formulate specification of simple, practical engineering tasks, distinctive for mechatronics		Student prepares an engineering diploma project. He is able to identify and formulate a specification of simple engineering tasks of a practical nature.			[SU1] Assessment of task fulfilment			
Subject contents	Realization of the work under the supervision of a supervisor in accordance with the defined scope and topic. Editorial preparation of the content of the work for its publication. Consultation of the project with the supervisor and, if necessary, other experts. Preparation of a multimedia presentation.								

Data wygenerowania: 25.11.2024 20:43 Strona 1 z 2

Prerequisites and co-requisites	Registration for the diploma semester.					
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade			
	Evaluation of the engineering diploma project	56.0%	100.0%			
Recommended reading	Basic literature	Literature consistent with the topic of the work.				
	Supplementary literature Literature consistent with the topic of the work.					
	eResources addresses	Adresy na platformie eNauczanie:				
Example issues/ example questions/ tasks being completed	Current lists of questions for the diploma examination, appropriate for a given specialization, are available on the Faculty's website.					
Work placement	Not applicable					

Document generated electronically. Does not require a seal or signature.
