

Subject card

Subject name and code	PROFESSIONAL ARCHITECTURAL INTERNSHIP, PG_00055587						
Field of study	Architecture						
Date of commencement of studies	October 2021	Academic year of realisation of subject			2024/2025		
Education level	first-cycle studies	Subject group			Optional subject group Subject group related to scientific research in the field of study		
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	4	Language of instruction			Polish		
Semester of study	7	ECTS credits			30.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Department of Urban Architecture and Waterscapes -> Faculty of Architecture						
Name and surname of lecturer (lecturers)	Subject supervisor		dr inż. arch. Tomasz Szymański				
	Teachers		dr inż. arch. Tomasz Szymański				
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	0.0	0
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	0		10.0		740.0	750
Subject objectives	limit znaków nie pozwala na wstawienie tłumaczenia						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	[K6_K01] is ready to comply with the principles of professional ethics and take responsibility for his/her actions	is ready to comply with the principles of professional ethics and take responsibility for the actions taken			[SK5] Assessment of ability to solve problems that arise in practice		
	[K6_K04] is ready for lifelong learning, including second cycle and post-graduate studies or participation in other forms of education	is ready for lifelong learning, including by undertaking second-cycle and postgraduate studies or participating in other forms of education			[SK1] Assessment of group work skills		
	[K6_U71] is able to apply knowledge from humanistic, social, economic or legal sciences in order to solve problems in a social environment	is able to apply knowledge from the humanities, social sciences, economics or law to solve problems in the social environment			[SU4] Assessment of ability to use methods and tools		
	[K6_K02] is ready to respect the diversity of views and cultures and to show sensitivity to the social aspects of the profession	is willing to respect diversity of views and cultures and to demonstrate sensitivity to the social aspects of the profession			[SK4] Assessment of communication skills, including language correctness		
[K6_W05] knows and understands issues related to architecture and urban planning in the context of the multi-discipline character of architectural and urban design; laws and procedures necessary to implement building designs; estimation of costs principles, project management, cost control methodology and principles of implementing a construction project	the student knows and understands the basic methods, techniques, tools and materials used in solving engineering tasks in the field of architectural design; issues of maintaining objects and systems typical for architectural design; principles of operation of the architectural studio in the context of work organization in individual phases of the design process			[SW1] Assessment of factual knowledge			

Subject contents	<p>As part of the internship, students take an active part in architectural design in design studios or offices of contracting companies. They learn to recognize the substantive scopes of design documentation phases (concept, construction and architectural design and detailed design), and to look for information on the issues they are working on. They develop teamwork skills. The indicated topics of architectural works: residential and collective residence facilities as well as public utility facilities, residential and service complexes, including the issues of land development plans at various stages of design. Supervision over the substantive side the internship is carried out by the internship tutor. On the work done, the student presents a report to the commission that completes the apprenticeship, detailing the topics, design phase and scope of own work, confirmed by the head of the studio (in accordance with the model adopted in the Principles for the implementation of professional and architectural practice.</p>		
Prerequisites and co-requisites
