

## Subject card

Subject name and code	Diploma Exam Preparation, PG_00055684						
Field of study	Architecture						
Date of commencement of studies	October 2021		Academic year of realisation of subject			2024/2025	
Education level	first-cycle studies		Subject group			Obligatory subject group in the field of study	
Mode of study	Full-time studies		Mode of delivery			at the university	
Year of study	4		Language of instruction			Polish	
Semester of study	8		ECTS credits			5.0	
Learning profile	general academic profile		Assessment form			assessment	
Conducting unit	Faculty of Architecture						
Name and surname of lecturer (lecturers)	Subject supervisor		dr inż. arch. Magdalena Podwojewska				
	Teachers		dr inż. arch. Magdalena Podwojewska				
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	0.0	0
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	0		5.0		120.0	125
Subject objectives	Remind of knowledge of all Bachelor (First degree) studies on field of studies in Architecture						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[K6_W05] knows and understands issues related to architecture and urban planning in the context of the multi-discipline character of architectural and urban design; laws and procedures necessary to implement building designs; estimation of costs principles, project management, cost control methodology and principles of implementing a construction project	knows and understands issues related to architecture and urban planning in the scope of solving design problems; issues related to architecture and urban planning useful for designing architectural objects and urban complexes in the context of social, cultural, natural, historical, economic, legal and other non-technical conditions of engineering activity, integrating knowledge acquired during studies; principles, solutions, structures, building materials used in the performance of engineering tasks in the scope of architectural and urban design; issues related to architecture and urban planning in the context of the multi-disciplinary nature of architectural and urban design and the need to cooperate with other specialists; principles of professional presentation of architectural and urban concepts.	[SW1] Assessment of factual knowledge
	[K6_U71] is able to apply knowledge from humanistic, social, economic or legal sciences in order to solve problems in a social environment	is aware of the need to use knowledge from the humanities or social or economic or legal sciences in functioning in a social environment	[SU3] Assessment of ability to use knowledge gained from the subject
	[K6_K71] is conscious of the need to apply knowledge from humanistic, social, economic or legal sciences in order to function in a social environment	is aware of the need to use knowledge from the humanities or social or economic or legal sciences in functioning in a social environment	[SK5] Assessment of ability to solve problems that arise in practice
	[K6_K04] is ready for lifelong learning, including second cycle and post-graduate studies or participation in other forms of education	is ready for lifelong learning, including second cycle and post-graduate studies or participation in other forms of education	[SK4] Assessment of communication skills, including language correctness
	[K6_U03] is able to prepare a graphic, written and oral presentation of your own design concepts in the field of architecture and urban planning, meeting the requirements of a professional record appropriate for architectural and urban design	is able to analyse existing conditions, assess the state of land development and development and formulate conclusions for design; design an architectural object or an urban complex, creating and transforming space in order to give it new values – in accordance with the adopted programme, taking into account non-technical aspects and integrating interdisciplinary knowledge and skills acquired during studies; prepare an advanced graphic, written and oral presentation of own design concepts in the field of architecture and urban planning, meeting the requirements of professional notation appropriate for architectural and urban design.	[SU1] Assessment of task fulfilment
Subject contents	Preparation for the exam covering the whole problems of program of study, divided into four blocks: "Architecture", "Urban planning", "History of Art", "Technics".		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Oral exam	100.0%	100.0%
Recommended reading	Basic literature	According to individual selection of student	
	Supplementary literature	According to individual selection of student	
	eResources addresses	Adresy na platformie eNauczanie:	

Example issues/ example questions/ tasks being completed	1. Definitions of architecture.  2. Notion of urban revitalisation.  3. Acropolis in Athens - epoch, objects, architects.  4. Kind of floors, layers of floors, examples of employment.
Work placement	Not applicable
