

Subject card

Subject name and code	CAD. Introduction, PG_00055858								
Field of study	Architecture								
Date of commencement of studies	October 2021		Academic year of realisation of subject			2021/2022			
Education level	first-cycle studies		Subject group			Obligatory subject group in the field of study			
Mode of study	Full-time studies		Mode of delivery			at the university			
Year of study	1		Language of instruction			English			
Semester of study	1		ECTS credits			2.0			
Learning profile	general academic profile		Assessment form			assessment			
Conducting unit	Department of Visual Techniques -> Faculty of Architecture								
Name and surname of lecturer (lecturers)	Subject supervisor		mgr inż. arch. Dariusz Cyparski						
	Teachers		mgr inż. arch. Dariusz Cyparski						
Lesson types and methods	Lesson type	Lecture	Tutorial	Laboratory	Projec	t	Seminar	SUM	
of instruction	Number of study hours	0.0	0.0	30.0	0.0		0.0	30	
	E-learning hours included: 0.0								
	Address on the e-learning platform: https://enauczanie.pg.edu.pl/moodle/course/view.php?id=8638 Adresy na platformie eNauczanie:								
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study		SUM	
	Number of study hours	30		4.0		16.0		50	
Subject objectives	The program aims to design documentation							grams to create	
Learning outcomes	Course outcome		Subject outcome			Method of verification			
	[K6_U03] is able to prepare a graphic, written and oral presentation of your own design concepts in the field of architecture and urban planning, meeting the requirements of a professional record appropriate for architectural and urban design		models and planar			[SU1] Assessment of task fulfilment [SU5] Assessment of ability to present the results of task			
	[K6_U01] is able to use the experience gained during studies to critically analyze the conditions and formulate conclusions for design in an interdisciplinary context		Has practical skills in creating and editing vector graphics and raster images. Can select appropriate computer tools and graphic resources for a design task.			[SU4] Assessment of ability to use methods and tools			

Data wydruku: 28.04.2024 08:19 Strona 1 z 2

	The application of computer graphic	s in architectural design					
	Creation of digital spatial models in SketchUp:						
	- creation, modifications and transformations of geometric objects						
	- navigation in virtual space and defining parallel and perspective views						
	Creating visualizations of architectural objects based on digital models						
	- the use of materials library and components						
	Creating technical vector drawings in AutoCAD						
	- digital drawing management - properties, styles, layers, blocks, groups, etc.						
	- printing to the scale						
	4. Creating complex digital documents						
	- combining vector drawings, raster images and text						
Prerequisites and co-requisites	IT knowledge at the secondary school level						
Assessment methods	Subject passing criteria	Passing threshold	Percentage of the final grade				
and criteria	substantive and graphical correctness of practical exercises	100.0%	100.0%				
Recommended reading	Basic literature	Course materials: https://enauczanie.pg.edu.pl/moodle/course/view.php?id=8638
