

Subject card

Subject name and code	Psychology, PG_00038059						
Field of study	Automation, Robotics and Control Systems						
Date of commencement of studies	October 2021		Academic year of realisation of subject		2021/2022		
Education level	first-cycle studies		Subject group				
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	1		Language of instruction		Polish		
Semester of study	1		ECTS credits		3.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Department of Entrepreneurship and Business Law -> Faculty of Management and Economics						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Beata Krawczyk-Bryłka				
	Teachers		dr Beata Krawczyk-Bryłka				
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	30.0	0.0	0.0	0.0	0.0	30
	E-learning hours included: 0.0						
	Adresy na platformie eNauczanie: PSYCHOLOGIA [2021/22] - Moodle ID: 13740 https://enauzanie.pg.edu.pl/moodle/course/view.php?id=13740						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		5.0		40.0	75
Subject objectives	The aim of the course is to deliver basic knowledge of psychological mechanisms influencing people behaviours, their consequences for student's and engineer's efficiency and for social behaviours.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
		knows few psychological words in English	[SU1] Assessment of task fulfilment
	[K6_W71] has general knowledge in humanistic, social, economic or legal sciences	student has basic knowledge in general and social psychology and the possibilities to use it in personal, student and professional situations	[SW1] Assessment of factual knowledge
	[K6_K71] is conscious of the need to apply knowledge from humanistic, social, economic or legal sciences in order to function in a social environment	students understands the importance of psychological and social knowledge about people behaviour for person's effectiveness in student and engineering tasks and self-development	[SK5] Assessment of ability to solve problems that arise in practice
	[K6_W71] has general knowledge in humanistic, social, economic or legal sciences		
	[K6_U71] is able to apply knowledge from humanistic, social, economic or legal sciences in order to solve problems in a social environment	Student understands psychological and social determinants of the effective student's and engineer's behaviour and use this knowledge for self-development; student knows and implement the rules of interpersonal communication and team work; appreciates various team roles and uses own competences for the benefit of the team	[SU3] Assessment of ability to use knowledge gained from the subject
		student knows and implement teamwork rules and use his/her own competencies for team effective collaboration	[SK1] Assessment of group work skills [SK5] Assessment of ability to solve problems that arise in practice

Subject contents	<p>Personal determinants of human actions effectiveness.</p> <p>Temperament, personality, competencies.</p> <p>Interpersonal communication rules. Active listening.</p> <p>Social judgement: importance, mistakes.</p> <p>Personal image creation.</p> <p>Team work rules and characteristics.</p> <p>Team roles, teamwork competencies.</p> <p>Collaboration in engineering project team - challenges of VUCA world.</p> <p>Alternative Conflict Resolutions.</p> <p>Reasons and prevention of aggression. Assertiveness.</p> <p>Motivation. Mental well-being.</p> <p>Psychological barriers of creativity.</p> <p>Positive and negative stress consequences. Dealing with stress techniques.</p> <p>New media influence on interpersonal relations.</p> <p>Values in student's and engineering activities.</p> <p>Effective learning rules.</p>		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	final test	50.0%	90.0%
	task completed during the lecture	80.0%	10.0%
