

Subject card

Subject name and code	Fundamentals of logistic management in transport, PG_00056153						
Field of study	Transport and Logistics						
Date of commencement of studies	October 2021	Academic year of realisation of subject			2021/2022		
Education level	first-cycle studies	Subject group			Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	1	Language of instruction			Polish		
Semester of study	2	ECTS credits			1.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Institute of Ocean Engineering and Ship Technology -> Faculty of Mechanical Engineering and Ship Technology						
Name and surname of lecturer (lecturers)	Subject supervisor	dr Anna Dembicka					
	Teachers	dr Anna Dembicka					
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	0.0	0.0	0.0	0.0	15
	E-learning hours included: 0.0 Adresy na platformie eNauczanie:						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours		Self-study		SUM
	Number of study hours	15	2.0		8.0		25
Subject objectives	To understand management problems in transport sector						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	[K6_K03] understands non-technical aspects and effects of operation as an engineer, its influence on the environment and is aware of the responsibilities for the decisions taken	Student is able to assess of the environmental impact of technical activities			[SK5] Assessment of ability to solve problems that arise in practice		
	[K6_W05] has an organized knowledge on design, construction and operation of means and systems of transport	Student recognises definitions of managing, planning, organising, motivating, supervising, resources, etc, innovations as well as communication. Uses basic definitions of management process.			[SW3] Assessment of knowledge contained in written work and projects		
	[K6_U04] has self-education skills in order to improve professional qualifications, is ready to work in industrial environment, adheres to HSE rules and regulations	Student understand processes of planning, organising, motivating, supervising, resources, etc, innovations as well as communication.			[SU3] Assessment of ability to use knowledge gained from the subject		
Subject contents	Lecture: Fundamentals in management in transport. Examples of firm of transport sector. Modal points: types, examples. Definition and examples of logistic centre. Tactical, strategic and operational planning. Building of strategy, decision making process in unstable conditions. Ethics in management Strategies for motivation. Operational and financial supervising.						
Prerequisites and co-requisites	Economy, finance, marketing						

Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
		final test	50.0%
