|   | Number of study hours   | 30  | 2.0                                 |  | 18.0   |         | 50  |
| Subject objectives                                  | Obtaining proficiency of English at B2 or C1 level by students. The course includes general and engineering content as well as elements of the technical language according to the course of study. The course ends with the ACERT examination. |   |                                     |  |  |         |     |
| Learning outcomes                                   | Course outcome  | Subject outcome   |                                     |  | Method of verification   |         |     |
|   | [K6_U82] is able to obtain and process information related to field of study and academic environment in foreign language at B2 level of the Common European Framework of Reference for Languages (CEFR)  | the student obtains and processes information at the B2 level in English about the course of study and the academic environment |                                     |  | [SU3] Assessment of ability to use knowledge gained from the subject     |         |     |
|   | [K6_U81] is able to communicate appropriately in foreign language at B2 level of the Common European Framework of Reference for Languages (CEFR) in everyday life, in academic and professional environments                                    | the student communicates correctly in everyday life as well as in the academic and professional environment at the B2 level     |                                     |  | [SU1] Assessment of task fulfilment                                      |         |     |
|   | [K6_W81] has knowledge of grammatical structures and lexical resources needed to communicate in foreign language in terms of general and specialist language related to field of study  | the student can communicate in English in the general and subject-specific language of the field of study                       |                                     |  | [SW2] Assessment of knowledge contained in presentation                  |         |     |
|   | [K6_K82] is equipped to participate in lectures, seminars and laboratory classes conducted in foreign language  | the student understands lectures, seminars and laboratories held in English   |                                     |  | [SK4] Assessment of communication skills, including language correctness |         |     |
| [K6_K81] is able to cooperate in international team | English is not an obstacle to working together in an international team   |   |                                     | [SK4] Assessment of communication skills, including language correctness |  |         |     |

| Subject contents   | <p><b>Vocabulary:</b><br/>Improvement of the general language skills and the introduction of expressions and phrases from the technical language of the field of study. Practising complex lexical structures. Introduction of engineering and mathematical terminology.</p> <p><b>Grammar:</b><br/>Implementation of the grammar to the extent necessary for the respective level of language proficiency. To provide structures necessary for verbal and written communication.</p> <p><b>Writing:</b><br/>Writing practice of a variety of texts: report, email, resume, notes, instructions, explanation of the process.</p> <p><b>Reading:</b><br/>Improving reading skills.</p> <p><b>Listen:</b><br/>Developing listening skills based on materials representing work and everyday situations: phone calls, interviews, customer service situations, lectures, presentations.</p> <p><b>Speaking:</b><br/>Communication practice regarding general and technical language: argumentation, problem solving, case studies, conducting formal, informal and job interviews. Exercise of pronunciation and correct accentuation.</p> |  |  |                          |                   |                               |  |       |       |  |       |       |  |       |       |
