

## Subject card

Subject name and code	English language II, PG_00056191								
Field of study	Transport and Logistics								
Date of commencement of studies	October 2021		Academic year of realisation of subject			2021/2022			
Education level	first-cycle studies		Subject group			Optional subject group Humanistic-social subject group			
Mode of study	Full-time studies		Mode of delivery			at the university			
Year of study	1		Language of instruction			English			
Semester of study	2		ECTS credits			2.0			
Learning profile	general academic profile		Assessment form			assessment			
Conducting unit	Language Centre -> Vice-Rector for Education								
Name and surname of lecturer (lecturers)	Subject supervisor mgr Aleksandra Lis								
	Teachers		mgr Krzysztof Lis						
	mgr Joanna Olszewska								
Lesson types and methods	Lesson type	Lecture	Tutorial	Laboratory	Projec	t	Seminar	SUM	
of instruction	Number of study hours	0.0	30.0	0.0	0.0		0.0	30	
	E-learning hours included: 0.0								
	Adresy na platformie eNauczanie:								
Learning activity and number of study hours	Learning activity Participation in classes include plan				Self-study SUM				
	Number of study hours	30		2.0		18.0		50	
Subject objectives	Obtaining proficiency of English at B2 or C1 level by students. The course includes general and engineering content as well as elements of the technical language according to the course of study. The course ends with the ACERT examination.								
Learning outcomes	Course out	come	Subject outcome			Method of verification			
	[K6_U82] is able to obtain and process information related to field of study and academic environment in foreign language at B2 level of the Common European Framework of Reference for Languages (CEFR)		the student obtains and processes information at the B2 level in English about the course of study and the academic environment			[SU3] Assessment of ability to use knowledge gained from the subject			
	[K6_U81] is able to communicate appropriately in foreign language at B2 level of the Common European Framework of Reference for Languages (CEFR) in everyday life, in academic and professional environments		the student communicates correctly in everyday life as well as in the academic and professional environment at the B2 level			[SU1] Assessment of task fulfilment			
			the student can communicate in English in the general and subject- specific language of the field of study			[SW2] Assessment of knowledge contained in presentation			
	[K6_K82] is equipped to participate in lectures, seminars and laboratory classes conducted in foreign language		the student understands lectures, seminars and laboratories held in English			[SK4] Assessment of communication skills, including language correctness			
	[K6_K81] is able to cooperate in international team		English is not an obstacle to working together in an international team			[SK4] Assessment of communication skills, including language correctness			

Data wydruku: 26.04.2024 16:48 Strona 1 z 2

Vocabulary: Improvement of the general language skills and the introduction of expressions and phrases from the technical language of the field of study. Practising complex lexical structures. Introduction of engineering and mathematical terminology.   Grammar: Implementation of the grammar to the extent necessary for the respective level of language proficiency. To provide structures necessary for verbal and written communication.   Writing: Writing: Writing practice of a variety of texts: report, email, resume, notes, instructions, explanation of the process.   Reading: Improving reading skills.   Listen: Developing listening skills based on materials representing work and everyday situations: phone calls, interviews, customer service situations, lectures, presentations.   Speaking: Communication practice regarding general and technical language: argumentation, problem solving, case studies, conducting formal, informal and job interviews. Exercise of pronunciation and correct accentuation.									
technical language of the field of study. Practising complex lexical structures. Introduction of engineering and mathematical terminology.  Genum: Implementation of the grammar to the extent necessary for the respective level of language proficiency. To provide structures necessary for verbal and written communication.  Writing: Writing: Writing practice of a variety of texts: report, email, resume, notes, instructions, explanation of the process.  Reading: Improving reading skills.  Listen: Developing listening skills based on materials representing work and everyday situations: phone calls, interviews, customer service situations, lectures, presentations.  Spasking: Communication practice regarding general and technical language: argumentation, problem solving, case studies. Conducting formal, informal and job interviews. Exercise of pronunciation and correct accentuation.
