

Subject card

Subject name and code	Ship Production Setup, PG_00056430						
Field of study	Ocean Engineering						
Date of commencement of studies	October 2021		Academic year of realisation of subject		2023/2024		
Education level	first-cycle studies		Subject group		Optional subject group Subject group related to scientific research in the field of study		
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	3		Language of instruction		Polish		
Semester of study	6		ECTS credits		2.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Institute of Ocean Engineering and Ship Technology -> Faculty of Mechanical Engineering and Ship Technology						
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. inż. Karol Niklas				
	Teachers		dr hab. inż. Karol Niklas				
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	30.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		5.0		15.0	50
Subject objectives	<p>Target of classes is to familiarise students with preparation of ship erection processes, especially with scope and content of its documentation, as fundamental for proper erection process performance.</p> <p>During classes student on the base of literature study, standards as well as shipyard procedures elaborates set of basic technological documentation for selected structural element like panel.</p>						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K6_W05] has an organized knowledge on design, construction and operation of ocean technology objects and systems		Student is able to join knowledge from different areas to elaborate raised task		[SW1] Assessment of factual knowledge		
	[K6_W06] has an organized knowledge on engineering methods and design tools allowing the conducting of projects within the construction and operation of ocean technology objects and systems		Student recognizes and knows issues and physical processes in relations to deigned object		[SW1] Assessment of factual knowledge		
	[K6_K03] understands non-technical aspects and effects of operation as an engineer, its influence on the environment and is aware of the responsibilities for the decisions taken		Student is able to asses of the environmental impact of technical activities		[SK5] Assessment of ability to solve problems that arise in practice		
	[K6_U06] in compliance with a formulated specification and with the aid of appropriate tools and methods, is able to complete a simple engineering task within the range of design, construction and operation of ocean technology objects and systems		Student is able to formulate key topics for realised task and defines milestones for its realisation		[SU3] Assessment of ability to use knowledge gained from the subject		

Subject contents	<ul style="list-style-type: none">• Design and technological preparation of manufacturing• Splitting of erection process on phases, stages and tasks• Preparation of technological documentation - type of documents• labour demand assessment		
Prerequisites and co-requisites	Classes delivered in previous semesters: - Technologia Budowy Okrętów I (O:098010) - Technologia Budowy Okrętów II (O:098011) - Technologia Budowy Okrętów-III (O:098012)		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	project	100.0%	100.0%
Recommended reading	Basic literature	1. E.Baker III: Introduction to Steel Shipbuilding, McGraw-Hill 1953 2. Kuzminow S.: Swarocznyje deformacji sudowych konstrukcji. Sudostrojenije 1974. 3. Wiebeck E.: Technologie des Schiffskorperbaus. Technik Berlin 1980.	
	Supplementary literature	Journals: Ship & Boat International, Superyacht Business, etc.	
	eResources addresses	Adresy na platformie eNauczanie: Przygotowanie Produkcji Okrętowej, P, sem.6, lato23/24, PG_00056430 - Moodle ID: 37173 https://enauczanie.pg.edu.pl/moodle/course/view.php?id=37173	
Example issues/ example questions/ tasks being completed	Elaborate of timeschedule (Gannts diagramm) for elaboration of 10 panels module in one month explain following definitions: organsation of production process, classification of proffesions, division of hull structure on classes, standard of work.		
Work placement	Not applicable
