

Subject card

Subject name and code	Psychology of Social Risk, PG_00056496										
Field of study	Mechatronics										
Date of commencement of studies	October 2021		Academic year of realisation of subject		2021/2022						
Education level	first-cycle studies		Subject group		Optional subject group Humanistic-social subject group						
Mode of study	Full-time studies		Mode of delivery		at the university						
Year of study	1		Language of instruction		Polish						
Semester of study	1		ECTS credits		1.0						
Learning profile	general academic profile		Assessment form		assessment						
Conducting unit	Department of Ship Manufacturing Technology, Quality Systems and Materials Science -> Faculty of Mechanical Engineering and Ship Technology										
Name and surname of lecturer (lecturers)	Subject supervisor		dr Marcin Szulc								
	Teachers		dr Marcin Szulc								
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM				
	Number of study hours	15.0	0.0	0.0	0.0	0.0	15				
	E-learning hours included: 0.0 Address on the e-learning platform: https://enauczanie.pg.edu.pl/moodle/course/view.php?id=6252 Adresy na platformie eNauczanie:										
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM				
	Number of study hours	15		1.0		9.0	25				
Subject objectives	The aim of the course is to present social hazards, their psychological background, consequences and prevention.										
Learning outcomes	Course outcome		Subject outcome			Method of verification					
	[K6_K01] is aware of non-technical aspects, individual and collaborative work responsibility and is capable to comply to rules of team cooperation and to take responsibility for collectively performed tasks		The student understands the importance of prevention			[SK4] Assessment of communication skills, including language correctness					
	[K6_K02] is aware of social role of the technical university alumni, the importance of professional attitudes, obeying ethic rules with respect to diverse point of views and cultures, understands the need for permanent self-learning		The student is able to discuss the conditions and consequences of social threats. The student knows how to counteract them			[SK5] Assessment of ability to solve problems that arise in practice					

Subject contents	1. Theories of social deviation 2. Determinants and counteracting self-harm and suicidal behavior 3. Aggression and violence 4. Domestic violence - conditions and prevention 5. Risky use of electronic means of communication - cyberbullying and addiction 6. Mobbing 7. Health consequences of using psychoactive substances 8. Psychopathic personality disorders 9. Psychological determinants of crime 10. Psychological aspects of sexual disorders
