

Subject card

Subject name and code	Urban Planning II, PG_00053932							
Field of study	Spatial Development							
Date of commencement of studies	October 2020		Academic year of realisation of subject			2021/2022		
Education level	first-cycle studies		Subject group					
Mode of study	Full-time studies		Mode of delivery			at the university		
Year of study	2		Language of instruction			Polish		
Semester of study	3		ECTS credits			5.0		
Learning profile	general academic profile		Assessment form			assessment		
Conducting unit	Department of Urban Design and Regional Planning -> Faculty of Architecture							
Name and surname of lecturer (lecturers)	Subject supervisor		dr inż. arch. Roman Ruczyński					
	Teachers		dr inż. arch. Roman Ruczyński					
		mgr inż. arch. Marta Radziszewska						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	t	Seminar	SUM
	Number of study hours	15.0	0.0	0.0	30.0		0.0	45
	E-learning hours included: 0.0							
	Address on the e-learning platform: https://enauczanie.pg.edu.pl/moodle/course/view.php?id=8039 Adresy na platformie eNauczanie:							
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study		SUM
	Number of study hours	45		0.0		0.0		45
Subject objectives	Providing the students with the basic issues associated with design of housing areas Developing the knowledge, abilities and competencies assciated with the urban design of the urban structures with dominating housing component							

Data wydruku: 18.05.2024 09:07 Strona 1 z 3

Learning outcomes Course outcome		Subject outcome	Method of verification				
	[K6_K03] is aware of the social role of the spatial planning engineer, understands the need to promote, formulate and communicate to the public information and opinions about activities in the profession; is prepared to act in accordance with the principles of professional ethics, while taking care to cultivate the achievements and traditions of the profession of an urban planner and planner	Understands the role of design activity as a tool for shaping the space and living quality for residents.	[SK2] Assessment of progress of work				
	[K6_U08] performs an urban project with a basic degree of complexity, in accordance with the set specification, applicable rules, legal provisions and taking into account economic factors, and prepares an outline of its implementation strategy; prepares elements of planning documentation, cooperating with industry specialists	Develops an urban design referred to specific complexity level, in accordance with the given scope of issues.	[SU1] Assessment of task fulfilment				
	[K6_W07] knows the determinants of spatial economy in the field of social and economic sciences, including socio-cultural and legal issues	Recognises the role and importance of social relations as an element of shaping the living environment.	[SW3] Assessment of knowledge contained in written work and projects
