

Subject card

Subject name and code	Diploma Seminar, PG_00057102						
Field of study	Transport and Logistics						
Date of commencement of studies	February 2022	Academic year of realisation of subject			2022/2023		
Education level	second-cycle studies	Subject group			Optional subject group Subject group related to scientific research in the field of study		
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	2	Language of instruction			Polish		
Semester of study	3	ECTS credits			2.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Zakład Projektowania Okreту -> Institute of Ocean Engineering and Ship Technology -> Faculty of Mechanical Engineering and Ship Technology						
Name and surname of lecturer (lecturers)	Subject supervisor	dr hab. inż. Jakub Montewka					
	Teachers	dr hab. inż. Jakub Montewka					
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	30.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours		Self-study	SUM	
	Number of study hours	30	5.0		15.0	50	
Subject objectives	The aim of this course is to introduce to the students the elements of scientific writing, the skill which significantly improve and easy the process of diploma thesis writing. To this end lectures and projects are carried out.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[K7_K01] The student understands the need for lifelong learning, is able to critically assess the content, knows the importance of knowledge in solving cognitive and practical problems	The student knows that in order to write a research paper, one must first spend a great deal of time reading the available literature. This helps in the formulation of current hypotheses and research problems, which in turn leads to the development of both the person doing the research and the particular field of knowledge.	[SK5] Assessment of ability to solve problems that arise in practice
	[K7_W10] The student has the appropriate knowledge to complete a master's thesis in the field of transport	The student formulates a research problem related to his/her work, prepares a work plan and discusses its individual elements using the IMRAD style (introduction, methods, results and discussion). The student presents the information package prepared in this way concisely and exhaustively in the forum of the group.	[SW3] Assessment of knowledge contained in written work and projects
	[K7_U01] The student can obtain information from literature, databases and other, properly selected sources, also in English; is able to integrate the obtained information, interpret it, as well as draw conclusions and formulate and justify opinions	The student knows how to use databases of scientific journals; is able to systematize the information obtained from them; formulates or modifies the research objective of his/her work based on these databases.	[SU5] Assessment of ability to present the results of task
	[K7_U07] The student is able to formulate the basic assumptions of transport policy at the EU, national, regional and local level	Bardzo proszę usunąć K7_U07 z karty. Na seminarium treści z tego obszaru nie są przekazywane studentom.	[SU3] Assessment of ability to use knowledge gained from the subject
Subject contents	Lectures and projects.		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
		51.0%	100.0%
