

Subject card

Subject name and code	Computer Aided Design, PG_00055787									
Field of study	Design and Construction of Yachts									
Date of commencement of studies	October 2022		Academic year of realisation of subject		2022/2023					
Education level	first-cycle studies		Subject group		Obligatory subject group in the field of study					
Mode of study	Full-time studies		Mode of delivery		at the university					
Year of study	1		Language of instruction		Polish					
Semester of study	1		ECTS credits		7.0					
Learning profile	practical profile		Assessment form		assessment					
Conducting unit	Faculty of Ocean Engineering and Ship Technology									
Name and surname of lecturer (lecturers)	Subject supervisor	dr inż. Wojciech Leśniewski								
	Teachers	dr inż. Daniel Piątek mgr inż. Dariusz Duda dr inż. Agnieszka Maczyszyn dr inż. Wojciech Leśniewski dr inż. Jakub Kowalski mgr inż. Ewa Wojtowicz mgr inż. Alicja Bera								
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM			
	Number of study hours	30.0	30.0	0.0	30.0	0.0	90			
E-learning hours included: 0.0										
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study		SUM		
	Number of study hours	90		16.0		69.0		175		
Subject objectives	Introduction to Engineering Graphics. The development of spatial imagination. Engineering graphics as a basic tool for transmitting information about machine elements. Ability to draw sketches of drawing elements of machine parts using rectangular and axonometric projections. Understanding the basics of the construction.									
Learning outcomes	Course outcome		Subject outcome			Method of verification				
	K6_U01		Ability to use basic principles and standards to present the shape and principle of operation of ship devices and parts.			[SU4] Assessment of ability to use methods and tools [SU3] Assessment of ability to use knowledge gained from the subject [SU2] Assessment of ability to analyse information [SU1] Assessment of task fulfilment				
	K6_W04		Ability to use computer software and freehand drawing to present and describe the operation and production technology of the presented elements.			[SW3] Assessment of knowledge contained in written work and projects [SW1] Assessment of factual knowledge				

Subject contents	<ul style="list-style-type: none"> <li>- the role of engineering graphics, basics of standardization,</li> <li>- parallel, rectangular and axonometric projections,</li> <li>- point, line, plane, determination, common points, special locations,</li> <li>- revolving solids and polyhedrons, punching, intersecting, penetrating views, cases, sections,</li> <li>- dimensioning of elements, tolerating dimensions, marking the condition of the surface,</li> <li>- types of drawings, graphic form of the sheet, rules for the preparation of executive and assembly documentation</li> <li>- getting to know the Autocad / Slidedge software.</li> <li>- basic commands and operations needed to make a 2D detailed and assembly drawing,</li> <li>- construction of 3D models,</li> <li>- construction of simple assemblies in a 3D environment,</li> <li>- creating technical documentation in an electronic version from entrusted axonometric views,</li> <li>- principles of geometrical description of the shape of the hull of ships - theoretical lines</li> <li>- basics of the constructional and technological drawing of the ship's structure</li> </ul>												
Prerequisites and co-requisites	Knowledge of basic machines parts and their construction;												
Assessment methods and criteria	<table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: center;">Subject passing criteria</th><th style="text-align: center;">Passing threshold</th><th style="text-align: center;">Percentage of the final grade</th></tr> </thead> <tbody> <tr> <td style="text-align: center;">Colloquium including lectures</td><td style="text-align: center;">60.0%</td><td style="text-align: center;">20.0%</td></tr> <tr> <td style="text-align: center;">Drawing exercises</td><td style="text-align: center;">60.0%</td><td style="text-align: center;">50.0%</td></tr> <tr> <td style="text-align: center;">Colloquia of exercises</td><td style="text-align: center;">60.0%</td><td style="text-align: center;">30.0%</td></tr> </tbody> </table>	Subject passing criteria	Passing threshold	Percentage of the final grade	Colloquium including lectures	60.0%	20.0%	Drawing exercises	60.0%	50.0%	Colloquia of exercises	60.0%	30.0%
Subject passing criteria	Passing threshold	Percentage of the final grade											
Colloquium including lectures	60.0%	20.0%											
Drawing exercises	60.0%	50.0%											
Colloquia of exercises	60.0%	30.0%
