Learning outcomes	Course outcome	Subject outcome	Method of verification
	[K6_U02] is able to design an architectural object or a simple urban complex that meets the aesthetic and technical requirements	- makes drawings showing the designed form - makes a spatial model	[SU2] Assessment of ability to analyse information
	[K6_U03] is able to prepare a graphic, written and oral presentation of your own design concepts in the field of architecture and urban planning, meeting the requirements of a professional record appropriate for architectural and urban design	- prepares a presentation and presents his work in 2-D and 3-D - selects the size of the boards to the presented drawings - composes boards on which the designed object is presented	[SU3] Assessment of ability to use knowledge gained from the subject
