| Subject name and code | Economic geography , PG_00049157 | | | | | | |
| Field of study | Spatial Development | | | | | | |
| Date of commencement of studies | October 2022 | Academic year of realisation of subject | | | 2022/2023 | | |
| Education level | first-cycle studies | Subject group | | | Obligatory subject group in the field of study Subject group related to scientific research in the field of study | | |
| Mode of study | Full-time studies | Mode of delivery | | | at the university | | |
| Year of study | 1 | Language of instruction | | | Polish | | |
| Semester of study | 2 | ECTS credits | | | 2.0 | | |
| Learning profile | general academic profile | Assessment form | | | exam | | |
| Conducting unit | Department of Urban Design and Regional Planning -> Faculty of Architecture | | | | | | |
| Name and surname of lecturer (lecturers) | Subject supervisor | | dr Magdalena Szmytkowska | | | | |
| | Teachers | | dr Magdalena Szmytkowska | | | | |
| Lesson types and methods of instruction | Lesson type | Lecture | Tutorial | Laboratory | Project | Seminar | SUM |
| | Number of study hours | 15.0 | 15.0 | 0.0 | 0.0 | 0.0 | 30 |
| | E-learning hours included: 0.0 | | | | | | |
| Learning activity and number of study hours | Learning activity | Participation in didactic classes included in study plan | Participation in consultation hours | | Self-study | | SUM |
| | Number of study hours | 30 | 3.0 | | 17.0 | | 50 |
| Subject objectives | The subject presents main knowledge concerning contemporary spatial planning and economic geography. The subject aims to transfer knowledge for such subjects as regional planning and urban planning. | | | | | | |
| Learning outcomes | Course outcome | | Subject outcome | | Method of verification | | |
| | [K6_W05] has basic knowledge in the field of city and region development management and implementation of investment projects, and also knows the principles of conducting business related to space management and general principles of creating and developing forms of individual entrepreneurship | | Knowledge of theories and methods of spatial management and socio-economic geography. | | [SW1] Assessment of factual knowledge | | |
| | [K6_U03] acquires, collects and classifies information in the field of spatial management from a variety of sources, including literature, databases, electronic sources, field observations, surveys and interviews; can perform urban and ruralistic inventory | | The ability to analyze statistical data and existing studies in the field of spatial management and socio-economic geography. | | [SU5] Assessment of ability to present the results of task [SU2] Assessment of ability to analyse information [SU1] Assessment of task fulfilment | | |

| Subject contents | <p>Basics of spatial planning:</p> <ol style="list-style-type: none"> 1. General theoretical concepts 2. Spatial structure of economy and territory 3. Tradition and evolution of spatial planning 4. Main theories of spatial economy 5. Modelling spatial economy 6. Models of regional growth 7. Research methods 8. Factors of spatial planning 9. Methods of diagnosis 10. Methods of monitoring 11. Methods of spatial planning 12. Plans or spatial development 13. Principles spatial planning 14. Spatial decisions 15. Social participation in spatial planning <p>Economic geography I:</p> <ol style="list-style-type: none"> 1. Regionalism versus globalization. New trends in the worlds economy development. 2. Nature and role of regions in the global economy. 3. Forms of regionalism. Threats and benefits from regionalism. 4. The role of regions in Europe. Regions in different types of states (federal state, unitary state and regional state). 5. The NUTS classification (the collection, development and harmonization of EU regional statistics). Fundamental principles of the EU. 6. Regions in Poland. Role, and the competencies of regions. 7. The scale of regional disparities in Poland, Europe and around the world. 8. Reasons of regional disparities. Traditional theories of regional and local development. 9. Reasons of regional disparities in the light of the new regional development theories (new economic geography, new new economic geography, new growth theory). 10. Structural changes and economic development. Principles of structural changes. 11. Regional competitiveness and innovativeness. The role of clusters in regional development. 12. The catch up processes. Regional convergence and divergence in the EU. 13. The stimuli of regional growth. Regional and Cohesion Policy. 14. The instruments of the Cohesion Policy. The Structural Funds and the Cohesion Fund. 15. The paths of the European regions development. The examples of winners and losers. | | | | | | | | | | | | | | |
