

## Subject card

Subject name and code	Sociology of built environment, PG_00049168						
Field of study	Spatial Development						
Date of commencement of studies	October 2022	Academic year of realisation of subject			2023/2024		
Education level	first-cycle studies	Subject group			Obligatory subject group in the field of study Humanistic-social subject group Subject group related to scientific research in the field of study		
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	2	Language of instruction			Polish		
Semester of study	3	ECTS credits			4.0		
Learning profile	general academic profile	Assessment form			exam		
Conducting unit	Department of Urban Design and Regional Planning -> Faculty of Architecture						
Name and surname of lecturer (lecturers)	Subject supervisor	dr hab. Małgorzata Dymnicka					
	Teachers	dr hab. Małgorzata Dymnicka					
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	30.0	30.0	0.0	0.0	0.0	60
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours		Self-study	SUM	
	Number of study hours	60	6.0		34.0	100	
Subject objectives	<ol style="list-style-type: none"><li>1. The acquisition of knowledge of the social determinants of land use planning</li><li>2. The ability to interpret the impact of the cultural context for space management</li><li>3. Understanding and identifying key issues of contemporary urbanism: the housing, revitalization and suburbanization of built environment</li><li>4. Providing knowledge concerning basic concepts and issues involving spatial , social and cultural issues urbanized society</li></ol>						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[K6_W07] knows the determinants of spatial economy in the field of social and economic sciences, including socio-cultural and legal issues	Student understands that globalization is also active in the field of urban culture, embracing the identities, ways of life and the phenomenon of cultural diversity and hybridization.	[SW2] Assessment of knowledge contained in presentation
	K6_U04	Student understands the influence of social and cultural factors on shaping the urban built environment.	
	[K6_K03] is aware of the social role of the spatial planning engineer, understands the need to promote, formulate and communicate to the public information and opinions about activities in the profession; is prepared to act in accordance with the principles of professional ethics, while taking care to cultivate the achievements and traditions of the profession of an urban planner and planner	Student understands the relationship between social and spatial phenomena.
