

Subject card

Subject name and code	Proffesional practice, PG_00049374								
Field of study	Biomedical Engineering, Biomedical Engineering, Biomedical Engineering								
Date of commencement of studies	October 2022		Academic year of realisation of subject			2025/2026			
Education level	first-cycle studies		Subject group			Optional subject group			
Mode of study	Full-time studies		Mode of delivery			at the university			
Year of study	4		Language of instruction			Polish			
Semester of study	7		ECTS credits		2.0				
Learning profile	general academic pr	ofile	Assessment form			assessment			
Conducting unit	Department of Biomedical Engineering -> Faculty of Electronics, Telecommunications and Informatics								
Name and surname of lecturer (lecturers)	Subject supervisor		dr Brygida Mielewska						
	Teachers								
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Projec	Project Seminar		SUM	
	Number of study hours	0.0	0.0	0.0	0.0		0.0	0	
	E-learning hours included: 0.0								
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study		SUM	
	Number of study hours	0		2.0		48.0		50	
Subject objectives	The goal is to familiarize student with the future realized tasks in the real commercial environment.								

Data wygenerowania: 22.11.2024 00:15 Strona 1 z 2

Kident is able to gather new choise princed models of proper behaviour in and outside the work environment, make independent decisions; critically evaluate actions of their own, teams they lead and organisations they are professional roles, including n - observing rules of professional ethics and require it from others, n - care for the achievements and traditions of the professional ethics and require it from others, n - care for the achievements and traditions of the professional ethics and require it from others, n - care for the achievements and traditions of the professional ethics and require it from others, n - care for the achievements and traditions of the professional ethics and require it from others, n - care for the achievements and traditions of the professional ethics and require it from others, n - care for the achievements and traditions of the professional ethics and require it from others, n - care for the achievements and traditions of the professional ethics and require it from others, n - care for the achievements and traditions of the professional ethics and require it from others, n - care for the achievements and traditions of the professional ethics and require it from others, n - care for the achievements and traditions of the employer in a simulation and experimental methods, n - notice their systemic and non-technical aspects, finisk and act in an entrepreneural wey. [KK_U11] serady to critically assess possessed knowledge and acknowledge the importance of knowledge it is solving companied. [KK_K02] is ready to critically assess possessed knowledge and acknowledge the importance of knowledge it is solving companied. [KK_K02] is ready to critically assess possessed knowledge and acknowledge the importance of knowledge in solving companied in the context of problems solved of knowledge in solving companied in the context of problems solved of knowledge in the context of problems solved in the workplace.
